HUN DELEGATES RUSH
TO WEIMAR MEETING

About 20,000 Words In Al-
lies' Reply and 60,000 In
Foe Counter Proposals

VERSAILLES, June 16.—The
Germans received the Allied reply
to their counter-proposals at 6:45
this afternoon.

By FRED S. FERGUSON
(United Press Staff Correspondent)

PARIS, June 16.—The Allies' reply to
the German counter-proposals will be
delivered to Foreign Minister Brock-
dorff-Rantzau in Versailles at 4 o'clock
this afternoon, according to an official
announcement.

Paul Dutastu, secretary of the peace
conference, was to go to Versailles be-
tween three and six p. m. to hand the
document to Foreign Minister Brock-
dorff-Rantzau. It was understood that
he would make an oral statement in-
stead of reading the introductory letter.

This period will include the three-
day notice of renunciation of the armis-
tice, leaving the way open for the
Allies to begin military operations
against the Germans immediately after
expiration of the five days should they
refuse to sign.

According to the Paris morning pa-
pers, the revised text of the treaty
will not be fully printed before this
evening. It will be forwarded as soon
as possible, but the Germans in the
meantime will receive 200 copies of the
original text, corrected in red ink, so
as to permit them to revise Brock-
dorff-Rantzau's original copy.

Brockdorff-Rantzau and his associates
have ordered a special train to take them direct to Weimar tonight,
where the German national assembly
will consider the terms.

The Allies' reply totals about 20,000
words. The counter proposals, which
were made public yesterday, contain
about 60,000 words.

Many Important Changes
Made In Treaty of Peace

BY LOWELL MELLETT
(United Press Staff Correspondent)

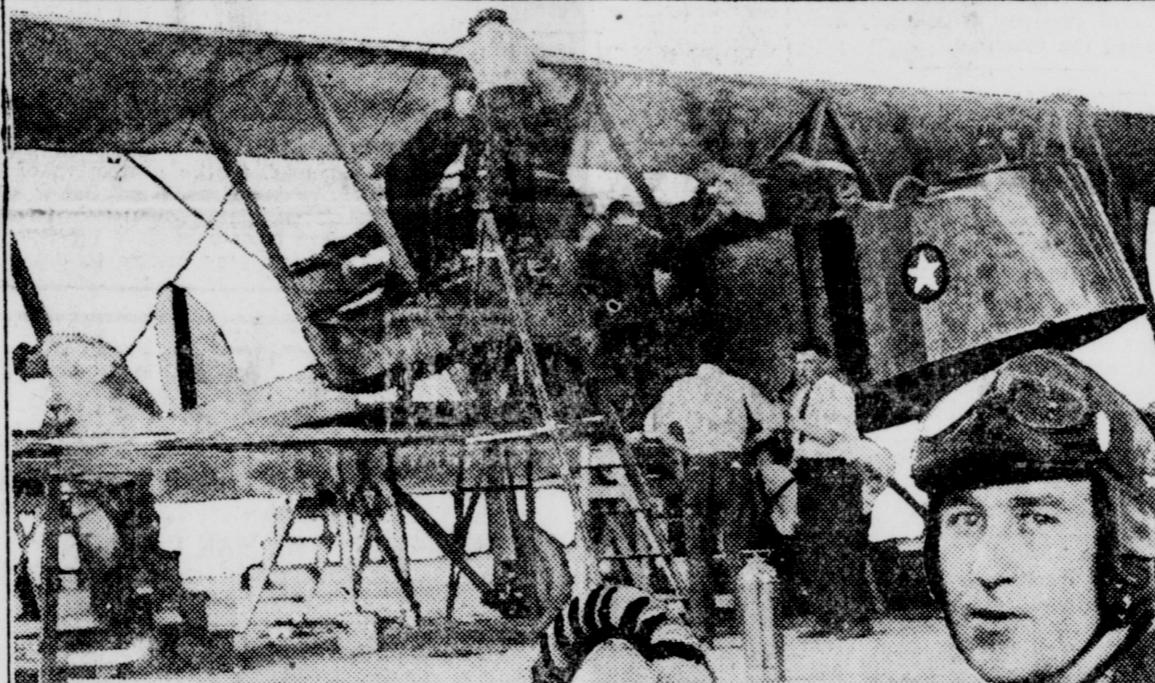

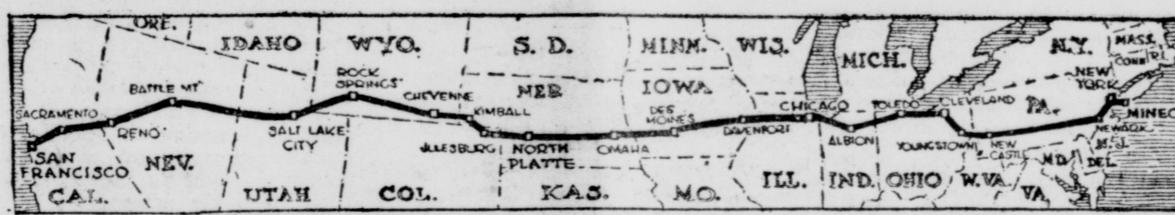

PARIS, June 16.—The real treaty
of Paris to be handed to the Germans
in Versailles this evening, differs ma-
terially from the "conditions of
peace" which the enemy received
May 7.

Several important changes have
been made since the Germans sub-
mitted their counter proposals, though
the principles of the original treaty
remain the same. The view of those
intimately concerned in making the

WILL TRY U. S. FLIGHT IN TWO HOPS

Glenn Martin Bombing Plane to be Used

FOUR MEN TO MAKE CROSS COUNTRY TRIP

First Jump From Mineola,
N. Y., Will Be Stretch
of 1509 Miles

If Captain Roy Francis of the United
States army is successful in his
proposed flight across the country,
which he will start soon, he will add
much to the distinction already
achieved by Glenn L. Martin, noted
airplane manufacturer, whose home is
in Santa Ana.

Francis will use a Martin bombing
plane which was designed and manu-
factured by the Santa Anan at his
eastern plant. The plane is one of the
many manufactured for war use, but
not completed in time to be employed
against the Huns.

Captain Francis will attempt to fly
from the U. S. flying field at Mineola,
N. Y., to San Francisco and make the
journey in two hops. The first jump
will be from Mineola to North Platte,
Neb., which is a stretch of 1509 miles
by the route mapped out.

The plane is fitted up to carry two
mechanicians and a trained observer.
Tests already made have shown the
machine to be very dependable
barring accidents, Capt. Francis ex-
pects to make the flight without
trouble.

Just when the trip will be started
is not known. The exact date has not
been decided and will depend some-
what on weather conditions.

BULLETINS

NEW YORK, June 16.—Forty
cars of oranges and two cars of
lemons sold. Orange market 15 to
25 cents higher, some brands 50
cents higher. Averages \$2.51 to
\$7.20. Highest price, California
Belle, \$7.20. Lemons 25 cents high-
er. Averages \$6.81 to \$7.51. Weather
fair; 8 a. m., temperature, 54°.

WASHINGTON, June 16.—Post
master General Burleson this after-
noon directed all telephone com-
panies to name representatives to
hear grievances of their employees
or any complaint which might be
made. He denied that he had taken
steps to bring about a confer-
ence between the striking tele-
phone operators and the Western
Union and Postal Telegraph com-
panies.

Airmen Alcock and Brown
Steel Selves for Ordeal
Of Reception In England

GALWAY, Ireland, June 16.—The
men who, battling fog and sleet,
made the first direct flight across the
Atlantic ocean from New Foundland to
Ireland, start for London today where
they will be received as heroes.

Captain John Alcock and Lieutenant A.
W. Brown, declare they fell much re-
freshed after a night's rest here and
that they were steeling themselves for
the ordeal of facing cheering thous-

ands upon their arrival in England.

The Vickers biplane, in which they
flew the 1930 miles over a stormy sea
in 16 hours, 12 minutes, lay in a bog
near here, where Alcock came down
under the impression that he was
landing in a beautiful meadow.

The machine was so badly damaged
in landing that all thought of Alcock
flying it to London was given up
today, it was stated. The plane will

1,200 L.A. Phone Girls and
Electrical Workers Strike

LOS ANGELES, June 16.—Califor-
nia's prettiest strike, a strike of vivacious
telephone operators, was in pro-
gress in Southern California today.
The strike leaders say it was a big
success and that 1200 out of 1600 tele-
phone operators in Los Angeles left
their switchboards immediately follow-
ing 8 a. m.

Manager C. F. Mason of the South-
ern California Telephone Company,
said it was a failure—that only 5 per
cent of the girls had struck.

"Come on out, Jane," was the cry
which echoed along the street.

At the same time that the girls
struck, linemen and electrical workers

(Continued on page 2)

AMERICANS SUFFER BUT
FEW CASUALTIES; DRIVE
BANDIT ARMY 15 MILES

EL PASO, June 16.—Following a second engagement with Vil-
listas troops in which the Mexicans were again routed, American troops
crossed back to the United States this afternoon. At 1:30 p. m. Col.
Glover at Ft. Bliss stated to the United Press that only the cavalry bri-
gade of expedition which entered Mexico during the night, remained on
the Mexican side. It was expected to cross to El Paso within an hour.

American casualties in the attack on Juarez and the second fight which oc-
curred at 9:30 a. m. six miles west of Zaraposa, as well as losses on the
American side from Mexican bullets now total two men killed, one seriously
wounded and two slightly wounded.

36 Villista Dead Counted.

The pursuit of the Villistas was continued for 15 miles into Mexican terri-
tory. The attack on Juarez in the morning hours which culminated in a fight
at the race track was a "picnic" for the negro troops of the Twenty-fourth in-
fantry.

The engagement west of Zaraposa where 1000 Villistas were encountered
by the Fifth and Seventh U. S. Cavalry and one battalion of the 82nd field
artillery also proved of short duration.

As in the attack on the race track, the artillery opened on the Villista ranks
lifting the barrage just as the cavalry rushed in on the Mexicans. The Villistas
scattered in disorder. One member of the cavalry was seriously wounded.

The pursuit of the Villistas was conducted to within 15 miles of the border
and then abandoned. Villista casualties are unknown. Thirty-six Villista
dead were counted at one place.

The American advance into Juarez was undertaken at 11 a. m. Sunday by
orders from General J. B. Erwin, commander in the El Paso district to prevent
further firing into this city as the result of the fighting in Juarez which was
under heavy assault from a large Villista force.

Piloted by three armored cars, a number of American machine gun crews
and one pounders led the advance. They were closely followed by negro
troops of the 24th United States infantry, wearing trench helmets and campaign
packs.

Two companies of the United States 19th infantry followed across the
bridge at Juarez.

The American advance encountered little resistance at first. But sniping
against the United States forces began within a short time. After one Ameri-
can soldier was reported killed, orders were given to hunt down snipers and
kill them on sight.

In the meantime the guns of the 82nd United States field artillery opened
a bombardment from the El Paso side against the race track east of Juarez
where Villistas were entrenched.

Barrage at Race Track

The fifth and seventh regiments of the United States cavalry drove their
mounts through the shallow waters of the Rio Grande. Colonel Selah Tomp-
kins, of the seventh, commanded the cavalry brigade. He directed an en-
veloping movement against the race track, following up the box barrage of the
American artillery which was intended to cut off the Villistas there from escape.

General Erwin officially announced that no intervention or invasion of
Mexican soil in any punitive expedition such as followed the Villistas' raid on
Columbus, N. M., several years ago, is intended in the present expedition.

The American crossing was made with typical Yankee dash, within ten
minutes after orders were given the advance forces were entering Juarez. The
preparations were made with the same thoroughness as for a night raid on the
western front, but on a smaller scale here.

The American troops found Juarez filled with dead and wounded Mexicans
of both factions, while the inhabitants cowered in their adobe homes. Fighting
had been going on in Juarez intermittently since late Saturday night when the
rebel attack opened against the Carranzista garrison.

Dead in Distorted Attitudes.

Dead were lying in distorted attitudes over curbstones. Dogs were prowling
among the fallen Mexicans. The Cruz Blanca, "White Cross" hospital in
Juarez was caring for 32 wounded rebels and federal soldiers.

The preparations for the American entry of Mexico began at 7:30 Sunday
evening when the first detachment of the colored infantry reached the American
side of the international bridge. Colonel Arthur Hadsell was in command of
the foot soldiers.

At about the same time the artillery took up its station at Old Camp
Cotton on the north bank of the Rio Grande. The field guns were immediately
trained on Juarez, ready for action.

The companies of the 19th infantry, long stationed at Fort Bliss for bor-
der duty, and the negro troops brought from Columbus, N. M., had machine
gun and ambulance detachments. The American field hospitals on this side
were cleared for action. Practically the entire force of American troops at
Fort Bliss and along the border were kept under arms.

Juarez appeared to be a city of the dead when the United States soldiers
entered. Three American business men of Juarez and the United Press cor-
respondent had taken refuge in a Cantina awaiting developments when the
sound of a muffled engine was heard in the street. Three dark shapes crawled
around the corner. They were three American military armored motor cars.

Close behind tramped a dark mass. This proved to be the soldiers of the
24th infantry.

GERMANS GIVEN LAST REPLY OF ALLIES

Five Days Allowed to Sign Revised Treaty; Armies Ready to Move

(Continued from page 1)

alterations is that the greatest change lies in the new tone manifest in the 20,000 word document explaining the changes and replying to Count Brockdorff-Rantzaus objections.

The tone is said to be moderate and explanatory throughout, and the document is intended to show that the allies desire only to do justice and avoid inflicting unnecessary hardships on their late enemies. This is particularly true of the reparations clause, it is understood, which points out the permanent allied commission expects to avoid any misunderstanding and unwarranted interference with German internal affairs. It is said this clause will tell the Germans they will be informed of the total indemnities within a few months. (Four months instead of two years was agreed to a few days ago, but it is impossible to state whether this period was finally written into the redraft.)

The change regarding Germany's admission to the League of Nations is important, since the phrase "in a short time" is understood to have been employed. This is generally accepted as meaning October, when the first formal meeting will be held in Washington. Among the qualifications for Germany's admission are her demonstrations of the possession of a stable democratic government.

Modifications concerning the eastern boundaries go some distance in meeting Germany's demands. Germany is understood to have been given the opportunity to prove her claim that Upper Silesia territory is truly German, by a plebiscite to be held within six months, under direction of an allied commission.

The Saar Valley settlement, according to authoritative information, is modified materially.

The most radical change in connection with occupation of the Rhine districts is the decision to place that territory under civilian instead of military control. The troops will be practically all French, with a few British and still fewer Americans. The latter, in fact, may retain only 10,000 or enough to support the American flag there. The occupation period of 15 years, it is said, has not been changed.

Here Are Assertions of Huns' Counter Proposals

PARIS, June 16.—The German counter proposals contain the following assertions:

Germany accepted Wilson's fourteen points and nothing else as the basis of peace.

The original treaty contains a number of contradictions of principles, particularly in regard to disposition of German territories, economic conditions and Germany's admission to the League of Nations.

Germany agrees to the basic idea of military, naval and aerial regulations, especially to abolition of compulsory service, but contends she must retain sufficient forces during the "period of transition," before reducing her army to the 100,000 limit.

Cession of Upper Silesia and the Saar basin should not be carried out without a plebiscite. The same principle should be applied to Posen, West Prussia, Danzig, Schleswig and Moresnet.

Dismantling of Heligoland is agreed to.

Although justified in demanding restoration of her colonies, Germany is ready to accept a mandatory over them under the League of Nations.

Renunciation of German rights in China is affirmed.

Realization of the provision for renunciation of all of Germany's rights in Europe outside her own frontiers is impossible.

The obligation of paying for all damages sustained by the civil populations of Belgium and France is accepted.

Germany is anxious to co-operate in restoration of Belgium and France and will make proposals to this end shortly.

Germany cannot make ton for ton replacement of destroyed shipping, as this is beyond her powers of production.

Germany proposes establishment of a German commission to co-operate with the Allied reparations commission in working out the details of payment of indemnities.

Demand is made for immediate admission to the League of Nations.

Protest is made to international control of Germany's navigable rivers.

The Kiel canal will be opened to all nations under conditions of reciprocity.

Request is made for repatriation of all German war prisoners and interned civilians convicted of crimes committed in a hostile state during the war.

Germany refuses to recognize any justification of legality in criminal prosecution of the former kaiser, or other persons accused of violations of the laws of war, but declares she is ready to see that violations of international law are punished and suggests the preliminary question as to whether such offense has been committed to an international tribunal of neutrals.

Protest is made against even temporary exclusion of Germany from the international labor organization.

Germany protests against "occupation" of her territories to guarantee fulfillment of the peace terms.

A number of detailed criticisms and demands for fuller legislation are appended.

Another supplement contains comments of the German financial commission.

"And keep up with all my other engagements,"—line

Telegraphers' Strike To End Soon Says Konenkamp

CHICAGO, June 16.—The beginning of the end of the nation-wide strike of commercial telegraphers was seen here today by President S. J. Konenkamp and other union officials as a result of the announcement by Secretary Frank Morrison of the American Federation of Labor, that Postmaster General Burleson had promised to get the strikers and company representatives together.

President Konenkamp said this news was received jubilantly by his men. He said he predicted such action by the wire chief, basing his prophecy on the contention that "what he did for the

electrical workers he necessarily would be called upon to do for the telegraphers."

A committee is ready to confer either with Burleson or the companies and only awaits the call. Konenkamp said.

Percy Thomas, deputy international vice-president, at New York today was requested by President Konenkamp to visit Samuel Gompers to ask him to take up the strikers' demands with Burleson, Konenkamp said.

Thomas also was instructed to appeal to President Wilson for aid in settling the difficulty, he announced yesterday.

alterations is that the greatest

change lies in the new tone manifest

in the 20,000 word document

explaining the changes and replying to Count

Brockdorff-Rantzaus objections.

The tone is said to be moderate and explanatory throughout, and the document is intended to show that the allies desire only to do justice and avoid inflicting unnecessary hardships on their late enemies. Germany is understood to have been given the opportunity to prove her claim that Upper Silesia territory is truly German, by a plebiscite to be held within six months, under direction of an allied commission.

The Saar Valley settlement, according to authoritative information, is modified materially.

The most radical change in connection with occupation of the Rhine districts is the decision to place that territory under civilian instead of military control. The troops will be practically all French, with a few British and still fewer Americans. The latter, in fact, may retain only 10,000 or enough to support the American flag there. The occupation period of 15 years, it is said, has not been changed.

After the landing, hundreds of people from Clifden flocked to the scene, eager to obtain souvenirs. Sentries barred the way, but scores managed to run the blockade and wading through ankle deep mud, thronged around the machine, tearing bits of fabric from the wings.

The first man to sight the Vickers machine approaching Clifden after its journey from New Foundland, were an Australian soldier on his honeymoon, who was gazing out of a hotel window and a farmer's boy tending hogs. The machine suddenly loomed out of the morning mist and circled over the town, whereupon the two who had seen it spread the word and crowds began to gather.

Alcock circled until he saw the aerials of the Clifden wireless station. Then he dropped to the earth, quite near the tower. The wireless operators were nearly as astonished as the town folk as the aviators climbed weakly from their airship. One radio man quickly improvised an autograph album and ran out, presenting it to Alcock for his immediate signature. He signed and remarked:

"Now, if we only had a shave and a bath we'd be all right."

"That's the way to fly the Atlantic," Brown said, cheerily, with a gay gesture toward the machine.

HIGH RECORD FOR CITRUS GROVE AT TUSTIN

POULTRY EXPERTS TO PICK OUT THE CULLS

Demonstration to Be Given Wednesday at Prinslow Ranch, Harper

A poultry culling demonstration will be conducted Wednesday morning at the ranch of Charles Prinslow of Harper, by H. A. Hauser of the poultry division of the University of California.

The demonstration will start at 8 a. m. and will continue until 10:30 a. m. Any person interested in poultry raising is invited to attend. Hauser is to show what practical methods may be used to determine the fitness of poultry.

The demonstration has been arranged by the Orange County Farm Bureau.

ROTARIANS GATHERING AT SALT LAKE CITY

SALT LAKE CITY, Utah, June 16.—Salt Lake City was crowded today with 5,000 Rotarians from everywhere, here to attend the convention of the International Rotary Club, which opens tomorrow. Delegates began arriving yesterday, and before night the city had adopted the Rotarian motto as its own, "Service Above Self; He Profits Most Who Serves Best."

Officers of the International Rotary Association met in the Hotel Utah this afternoon, where they were guests at a dinner given by the Salt Lake club. This was followed by an organ recital in the Tabernacle and an automobile trip over Washatch Drive.

FRUIT TREE PRUNING COURSE IS ANNOUNCED

Those desiring to become proficient in the art of pruning such fruit trees as almond, apple, apricot, cherry, peach, pear, plum or prune, are offered an opportunity in the curriculum of the Farmers' Short Courses to be given at the University of California Farm School at Davis next fall. Practical information as to the methods of pruning which will secure the greatest possible crops will be given in the Horticultural course from December 20. Members of the Farm school state that aside from the necessity of good cultural methods, pruning is the chief factor in fruit crop production. Full information concerning the course may be obtained by writing to the Dean of the University Farm School, Davis.

Production has already begun and several extensive additions are being made to the plant in anticipation of the renewed interest in the once popular sport of bicycling.

New Values Established By Sale of Reid Acreage at \$4000 Per Acre

The Tustin citrus section is to the front.

It leads all parts of the county and Southern California in the price paid per acre for an orange grove without house improvements.

Rob. Reid, well known citrus farmer of Tustin, and auto dealer of Santa Ana, today is jingling \$40,000 in his pockets, figuratively speaking, and A. L. Austin is in contemplation of Jingling that many thousands in later years as he reaps the golden fruit from ten acres of Bob Reid's twenty acre tract on East First street.

Austin is a retired wheat dealer of Iowa and is making his home at Long Beach. He has just negotiated the purchase of the place, through Carden & Leibig.

This sets a new price for property in that vicinity and is believed to be the best figure ever paid for a grove in Southern California. The location of the grove and its fine appearance were factors contributing to the deal.

Reid is more or less of a scientific citrus grower and he has paid special attention to the development of his orchard.

He bought the property nine years ago, when the trees were but one year old and has developed them to the high state of perfection existing today. He paid considerably less than \$4000. per acre.

MUNITIONS FIRM TO GIVE CYCLING BOOST

MILWAUKEE, June 17.—The Briggs & Stratton Co., who during the war operated a mammoth plant for the production of hand grenades, have purchased the Smith Motor Wheel, a power plant attachment for bicycles, from the O. O. Smith Corporation of the same city.

Production has already begun and several extensive additions are being made to the plant in anticipation of the renewed interest in the once popular sport of bicycling.

Soldiers Take Up Y.M.C.A. Work Abroad Rather Than Lay Aside Army Uniforms

Two Dollar a Year Man and Decorated Motorcyclist Join Red Triangle

NEW YORK, June 14.—George W. Perkins, Jr., of Rivendale-on-Hudson, and "Spike" Randall, of 841 Third avenue, New York, have transferred their allegiance from the United States army to the Y. M. C. A. and have taken up their new duties without leaving France. They are just two of some sixty A. E. F. men, in which force is included John L. Mott, who have obtained transfers to Red Triangle work rather than return to America and lay aside the uniform.

George W. Perkins, Jr., is 24 years old and won his commission on the other side. "Spike" is 25 years old and won a Croix de Guerre. Perkins, who is a graduate of Princeton, '17, became known throughout the country for his fight on the college "eating clubs." With young Dick Cleveland, son of the late president, he waged a war on these institutions as hot-beds of college snobbery, and strived to eliminate this feature of college life by making these clubs more democratic. He was chairman of the Senior Council, business manager of the crew and president of the Philadelphia Society.

He has the distinction of being per-

haps the only "\$2-a-year" man doing war work. This comes about from the period that he enlisted in the "Y" for a period of six months at a compensation of \$1. There are several "dollar-a-year" men in Y. M. C. A. service, but

John L. Mott, General Secretary of the National War Work Council of the Y. M. C. A. He enlisted in Y. M. C. A. over-

FIVE GRADUATES GET DIPLOMAS AT IRVINE

Program at School Enjoyed By Audience That Packed Big Room

IRVINE, June 16.—On Thursday night the Irvine graduating class held its exercises. The following program was given:

"O, Columbia, the Gem of the Ocean," by the school; Scripture reading by Rev. Nixon of Santa Ana, followed by invocation; song, "Speed Our Republic," by grammar grades.

Meeting of Irvine School Club to illustrate parliamentary law; song, "Hail Columbia," grammar grades; address by Rev. McDougal of Tustin; presentation of diplomas by Rev. McDougal; remarks by Mrs. Bainbridge and gifts given to the class and a personal talk to each graduate; class song by eighth grade; song, "Home Sweet Home," by the school.

Miss Sears' work at the piano was much appreciated by the school.

There were five members of the graduating class, Ruby Lewis, Burton Kraschel, Antoinette Ahern, Mina Harlin and Roy Le Bard.

The Irvine school colors are yellow and white. The room was tastefully decorated with Scotch-broom, Shasta daisies and white scabiosas, with ornamental grass massed around the piano.

The work of the Irvine School Club, which was composed of the seventh and eighth grades, was very nicely done. It was also very instructive to many present. It also showed good practical and training of the club by their instructor, Mrs. Bainbridge.

Mr. McDougal's talk was centered upon the advantages of an education.

The presentation speech was enjoyed, especially by the class members as they received their hard-earned diplomas.

Mrs. Bainbridge in her remarks thanked everyone for the co-operation shown in helping the children with their work and in building up the school. She is leaving the school to take up other work.

A wonderful quality of citizenship has been established in the school.

To show their esteem for the teacher, Mrs. Bainbridge, the grammar grades presented her with a beautiful

seas work early in 1917, and saw

her in France with the organization before going into the army over there.

OBSERVATIONS

When senators get through relieving their minds about the League of Nations that threatens to take away our liberties, perhaps they will do something about the league of profiteers that is taking away our bank roll.

Every father knows that a weed is more hardy than a cultivated plant because it has to make its own way without putting, and yet he shields his son from hardship and calls it love.

We try to force our ideals on Europe without proper regard for the fact that the man who owns a 200-acre farm can afford to use better machinery than the fellow who gets his living from a garden patch.

To rent a room or house quickly without proper regard for the fact that the man who owns a 200-acre farm can afford to use better machinery than the fellow who gets his living from a garden patch.

Let Us Solve Your Plumbing Problems

Every modern sanitary idea is found in practical form in the Bath Rooms we install.

Modern plumbing conserves health, affords convenience and comfort, and makes your home more valuable. We will gladly assist you in choosing the best fixtures for your home.

DR. JOHN WESLEY HANCOCK
Expected to bring his wife home from the Santa Ana hospital this evening. Mrs. Hancock underwent a major operation last week successfully and is doing well. Dr. Hancock expects to start for Yosemita a week from Saturday if his wife is able to make the trip. However, business may make it impossible for him to get away.

A fair-sized, but very appreciative audience went to Clune's theater last night to hear Miss Alafretta Hallan deliver the first of a series of lectures on "Right Living and Right Thinking." Miss Hallan has the faculty of delivering her talks in a manner that will hold the interest of every man or woman who hears her. The second lecture of the series will be given tonight and the subject will

be "The Secret of Beauty and Keeping Young. The Cause and Cure of Disease."

P. L. Briney, who has been held up for a month because of a series of moves necessary before he could get possession of his recently acquired residence property at 626 North Ross street, moved yesterday. Mr. Blakeman, former owner, has taken the residence lately occupied by E. T. Mateer, which is located one door south. Briney has added a comfortable sleeping porch to his new property, and will otherwise add to its attractiveness by additional improvements.

Dr. Green, major in the U. S. army, in Siberia and the Philippines, was in Siberia and the Philippines, was in Santa Ana today, accompanied by his wife and daughter, Marion and Mrs. Lewis Robertson. The party was here looking the city over. Dr. Green is looking for a location in Southern California and may decide to come here to establish his residence.

Mrs. Olive Lopez has left for a two-weeks vacation, part of which will be spent at San Jacinto.

R. C. McMillan, who has been at San Pedro for a year, employed in the shipyards, has returned to his former residence, 812 South Garnsey, Santa Ana, and has re-entered the building and contracting business in this city.

Mrs. Mary Burch and son, Donald, are here from Des Moines, Ia., upon a visit to her sister, Mrs. E. L. Vegely.

City Motorcop Frank Stewart is in Los Angeles today attending the conference of traffic officers of the southern part of the state.

William Strassberger, of the Ross more barber shop, and his wife left yesterday for a visit at their former home, Woodward, Okla., where they will arrive in time to greet brothers of Mrs. Strassberger just returning from overseas.

Mrs. E. E. McDowell, who has been visiting her sister, Mrs. G. P. Hill, the past week, returned to her home at Hemet last evening. She was accompanied by her sister, Mrs. Robert I. Dunn, of Seattle, who is spending several weeks visiting in Southern California. Mrs. Dunn will return here the last of this week for a visit with Mrs. Hill.

Mrs. V. L. Clem has gone to Anderson, Ind., for the summer.

Mrs. J. J. Discuer has gone to Columbus, Neb.

B. W. Halladay and mother have gone to Topeka, Kans., for a short visit.

Miss Helen Gorman started for Omaha yesterday via San Francisco and will stop at Central City.

Mr. and Mrs. Bert Winslow, who have been visiting with Mr. W. S. Decker of 922 South Main street, left Sunday for Phoenix, Ariz.

Henry Bertl of 402 East Fourth street started for Denver today.

C. B. Payson of the Holly Sugar Co. started for Sheridan, Wyo., yesterday.

Mrs. Drew, who has been visiting with Mrs. Bradshaw of Tustin, left on her return trip to Slater, Mo., this morning.

J. A. Miller went to Ontario Saturday.

A. B. and L. S. Haven of the Haven Seed Co., are visiting Chicago and other points throughout the East on business. They went via the S. P. through San Antonio, and A. B. Haven's family accompanied them that morning.

Mr. and Mrs. H. E. Johnson and F.

**BROKERAGE FEE WANT RECRUITS
MINIMUM NOT
FAVORED****Irvine Growers Are Inclined
To the General Plan For
Permanent Pool**

Lima bean growers of the San Joaquin association heard addresses Saturday afternoon by R. L. Churchill of Oxnard, manager of the California Lima Bean Growers' Association, and A. J. Crookshank, a director of the Lima Bean Selling Agency, organized eleven weeks ago. The speakers explained fully the plan for what practically amounts to a continuation of the present pool, and in the general provision of the plan the growers concurred. They were opposed, however, strongly to any minimum brokerage fee guarantee to the Waterman and Levy firms.

Under the proposal now being considered by the various local associations, the Waterman and Levy firms will drop out of the list of independents and will become brokers for the association. Waterman has had contracts for handling beans grown by a large group of influential Ventura county growers. These contracts will be dropped and those growers will go into the association.

The arrangement under which Waterman and Levy quit the independent field is that they be given rights to sell beans for the association as brokers. They are to be given a five per cent brokerage fee, out of which must come other brokerage and cash discounts. To this point the Irvine growers were in accord with the plan. At this point, however, came a proposal that Waterman and Levy be given a minimum brokerage fee of thirty-five cents per 100 pounds. That is, if beans went below seven cents they would be paid a brokerage fee just as though the price was seven cents. The Irvine growers are willing to see the arrangement go through excepting that they want the brokerage fee to be upon a five per cent basis all the way through. It is probable that this arrangement as requested by the growers will be made. A. J. Crookshank in his address declared against any fixed minimum, county in the near future, with his wife, Jeiler Lacy for that period of

**ENROLLMENT AT FARM
SCHOOL IS INCREASING**

Just before the war was declared there was an enrollment of 314 students at the University Farm school at Davis. On account of the participation in the war, the enrollment dropped to 86 during the fall semester, but with the return of men from national service, a large number of former students returned, bringing with them many new students, making the total enrollment 183; vocational students 20; visitors 35 and short-course students 298. Total, 536.

Applications are now coming in for the three-year Farm school course, open to young men 18 to 25 years of age, who have a common school education or better. Registration date for the new term is September 26 and 27; for new students and September 29 for former students returning.

THE TIDES

Tuesday, June 17

Taylors Cash Store**Courthouse News****JAIL SENTENCE \$70,000 DAMAGE
IN STORE FOR
SPEEDER****TRIAL BEGINS
HERE TODAY**

Chas. Machus of Lankershim Caught By Cop at 56 Miles An Hour

Chas. Machus of Lankershim will probably be the guest of Orange county in the new future, with his headquarters at the county jail. He was passing through the county in an automobile Saturday and was having such a good time with two companions of the gentler sex that he unconsciously pressed the throttle a little too hard and speeded his machine beyond the limit permitted by the state law, plus the five miles per hour grace courteously allowed the automobile public by the county's efficient motorcop.

Machus and his fair companions were bowling along the state boulevard below El Toro at fifty-six miles an hour. Machus probably was too much engaged with the pleasing situation he was in to note the speedometer and when he passed through one of the traps below town his speed was caught at fifty-six miles.

Motorcop Carr was on the job, and after getting the time through the trap he had to speed his motorcycle some to catch up with the resident of Lankershim.

The stranger was given a cordial invitation to drop in and see Justice Cox next Wednesday, and that visit will be a painful one for the youth. Fifty miles an hour means a straight ten-day jail sentence with Judge Cox, and if Judge Cox doesn't reverse himself, Mr. Machus will board and room with Jeiler Lacy for that period of time.

**FOUR PETITIONS FOR
FINAL CITIZENSHIP**

Four petitions for final citizenship papers have recently been filed with the county clerk. The petitioners are Reinder Schwingen, 46, rancher of R. E. D. 1, Anaheim, and native of The Netherlands; Hans Otto Meier, 36, brewer, of West street; Anaheim, and native of Germany; Michael Hein, 45, farmer of R. D. 2, Anaheim, and native of Russia, and Verma Elizabeth Peterson, school teacher of 524 First street, Santa Ana, and native of Canada.

Two Orange county residents recently filed declarations of intention. Frank Alexander Calville Fairly, 36, machinist of 914 West First street, Santa Ana, and native of Ireland, came to this country in 1898 and Constantine Marcus Theodore, 34, laundryman of Anaheim, the other declarant, is a native of Greece and came to the United States in 1901.

**JURY TRIAL OF AUTO
CASE SET TOMORROW**

A. C. Woods goes to trial before a jury in Justice Cox's court tomorrow, upon a charge of traffic law violation preferred by G. W. Judd. Witnesses summoned include Vivian Sales, Harry Foote and Joe Skidmore. All parties live at Laguna Beach, where the alleged violation occurred on June 2 at the corner of Forest and Park avenues.

**BY SALE OF HEARTS
\$470.51 IS RAISED**

Through heart-day sales, \$392.21 was raised in Santa Ana and \$78.30 in Tustin for the Children's Home Society of California. The sales were conducted through the schools, to which there was made an appeal for the aid of helpless little children here in California by Mrs. Mildred N. Kennedy, field representative of the society. Mrs. Kennedy completed her work here today and is returning to Los Angeles.

"It was a very successful campaign," said Mr. Kennedy, "and I want the teachers and pupils and others who helped us all to know that we deeply appreciate the aid given me."

The total subscriptions were reported today by A. F. Zaiser, chairman of the local finance committee for the drive.

The executive committee of the County Parent-Teacher Associations met at Anaheim on Saturday afternoon. Among the topics up for discussion was the project of furnishing a maternity ward at the county hospital with bedside tables, screens and other equipment that might be used to advantage. While the philanthropic interest displayed was unquestioned the practicability of the project from a business standpoint was discussed, as it was found that a fund of \$23,800 still available in the hospital budget for any necessary improvements or changes in equipment. The committee in charge of the proposed work was continued and further inquiries will be made.

DEATHS

BLANCHARD—At his residence on Lyons street, Santa Ana, June 16, 1919, Robert A. Blanchard, aged 93 years, uncle of Mrs. M. V. Kohler. Services include rauspices of Sedgwick Post No. 17. G. A. R. will be from the Mills & Winbigler Mission Funeral Home, Wednesday at 10 a. m. Interment in Fairhaven cemetery.

**OVER 5,000 TO
ATTEND C. E.'S
CONVENTION****Seven Main Addresses to Be
Directed Along An
Important Line**

The Thirty-second Annual Convention of the California Christian Endeavor Union will open at Long Beach on Saturday evening, June 28, for five days. From every section of the state reports are coming in which indicate that the attendance will pass the 5000 mark. This will insure the largest convention of its kind that has ever been held in the state. The Long Beach Convention committee, which has in hand the entertaining of this vast throng is ready in all details to receive the incoming hosts. The city officials, the civic organizations, the churches, and the citizens of Long Beach have all joined hands to make this gathering a memorable one.

It will be the "Loyalty Convention" of the state union and the theme, "The Conquering Christ," will be worked out in seven main addresses by such world religious leaders as Rev. W. H. Griffith Thomas of Toronto, Canada; Charles H. Trumbull, editor of the Sunday School Times, of Philadelphia; Rev. John R. Voris, of the Inter-Church World Movement; Rev. H. A. Van Winkle of Oakland, Rev. L. A. McAfee of Berkeley, and many other speakers. Bible classes under most efficient leaders, and conferences on C. E. Methods, under the direction of the various state officers, will occupy most of the morning sessions.

A large chorus of a hundred voices is being trained at this time to take part in the great song and praise services which will be feature of each session. Soloists of note will contribute to all of the gatherings.

The convention sessions are to be held in the pavilion or auditorium at the land end of the great municipal pier. The overflow meetings will be held in the specially built tabernacle close to the auditorium.

The tremendous and lasting influence of state conventions in years past on the lives of thousands of young people, will no doubt be again reflected this year more than usual, due to the conditions of the times, and to the fact that so many of "our boys" who have been over there in the past two years will be present.

Having returned from France, I will be at my office at the usual hours on and after June 17th, 1919.

JOHN WEHRLY, M. D.

607 North Main St.

The reason a man fears that his mischief-loving little son won't turn out right is because he has forgotten what a little devil he was at that age.

**Kimonas
for Comfort
and
Convenience**

—A kimono of material that is practical—one you will not hesitate to wear for comfort and convenience is what you are looking for now.

—Kimonas made of crepe and satin trimmed, suitable for morning wear, \$2.50.

—More elaborately trimmed, \$3.00.

—Semi Silk-ribbon trimmed, \$5.00.

Chas. Spicer & Co.**LAGUNA BEACH TENT
SAN FRANCISCO IS
CITY POPULAR PLACE
ALL FOR JOHNSON**

LAGUNA BEACH, June 16.—About the busiest place on the beach these days is the Laguna Beach Tent City. This is particularly true over Sundays. Excellent accommodations are now available at the Tent City, of which Ed. Hofer is manager.

Guests at the Tent City Saturday included the following:

Mrs. Emma S. Smith, Mrs. Emma Robinson, Miss Marie Pike, Long Beach; E. W. Lawrence and family, Russell C. Stroys, Puente; Dr. T. H. Hayers, Mrs. Lindle and family, Mr. and Mrs. E. Laubach, Mr. and Mrs. I. B. Groves, H. B. Martin and wife, Geo. J. Elsner and wife, Mrs. Alexander, Santa Ana; A. G. Bagley and family, Long Beach; J. B. Holditch, E. A. Adams, Orange; Hattie and Della Goberg, W. D. Forrester, R. Allen, Harry O. Goldsmith and wife, J. Sherman and family, Los Angeles; C. H. Johnson and wife, La Habra; Mrs. R. J. Williams, J. H. Howell, J. K. Grauman, F. Carlison, E. D. Duarte and wife, Los Angeles; Mrs. K. K.

SUPERVISORS CANVASS—6 CTHOUSE:

The Board of Supervisors met this morning and began canvassing the returns of the county harbor bond election last Tuesday. This work has to be completed this afternoon.

The board meets tomorrow in regular session, when miscellaneous matters of business will be taken up.

Brown, Helen M. Brown, Long Beach; C. W. Roberts and wife, Los Angeles; L. M. Buchmaster and wife, Yorba Linda; Mrs. M. Allen, Whittier; John Krog and family, for the summer, Hollywood.

SANTA ANA, CALIFORNIA. MONDAY, JUNE 16, 1919.

BLACKEYE BEAN POOL TO OPEN WITH PRICE 4.5 CENTS

Directors Inspecting Product In Warehouse Find It In Good Shape

Within the next day or two blackeye beans will be offered for sale by the blackeye pool, and the price will be fixed at 4.5 cents per pound.

This decision was reached Saturday afternoon by W. C. Jerome, W. J. Cheney and John Osterman, the directors of the recently organized pool.

These men gave the blackeyes in the warehouse at Irvine a thorough inspection, and found them to be in first-class condition. There is an exceptional lot of fine beans on hand, and they will be offered to the market as guaranteed re-cleaned beans of first quality.

Since last fall blackeyes had been a drug on the market. Some of the growers have sold blackeye beans for as low as 2.50 cents. The fact that the pool was being organized and that it controls practically all of the first class blackeyes left on the coast strengthened the price of blackeyes so that now the market price is considered better than four cents a pound.

The directors of the pool, all of them well known Orange county bean growers, have made plans to get the best possible prices for the beans they represent. They have come into close touch with the market, and are satisfied that while opening at 4.50 cents, the price is bound to go higher, since they, with the control of the available first-class beans, can give buyers an assurance of stability.

Aviation Mechanic Is Home From Over There With Steel In One Eye

Archie Cooley, son of E. E. Cooley of 702 W. Washington Ave., recently returned from service overseas with many curios and souvenirs which he gathered while in the aviation service as mechanic. Six months were spent in England near London in the 372nd Aero Division, and eight months were spent in France with the 120th Aero Pursuit Squadron. He had applied for a commission but the war ended before he was sent to an officers' training school.

Although a mechanic, Copley had plenty of opportunity to fly, being allowed to take the machines up to test them. He says France may be all right for the French and England may suit the English, but he prefers most any old place in America, and is very glad to get back. He had been in the hospital at Camp Kearney for some time with a splinter of steel in his right eye. The splinter was not removed for fear of damaging the sight of his eye. He was discharged with twenty-five percent disability, and whether or not the splinter will affect the sight of both eyes cannot be told as yet.

A FAIR PROPOSITION, BUT NOTHING DOING

"The wind bloweth where it listeth! And no answer cometh!"

"Neither cometh the wood or the corn or the taters or the eggs or the bacon!"

"Some days ago, a good, liberal, loyal, generous, broad-minded citizen of one of the 'Cow Counties' wrote the local weekly paper that he wanted to subscribe for it during 1919 and get the county news, and would send in his subscription if the paper would be sent him at the old price (the price had of necessity been advanced from \$1 a year to \$1.50.)

"We immediately wrote him," says the editor, "we would accept his proposition—we would bring us a cord of wood, a barrel of corn, a bushel of sweet potatoes, a basket of eggs or a side of bacon at the price he got for these commodities five or six years ago, when there was some profit in publishing a newspaper at \$1 a year."

"Seven long days have passed—and no wood, no corn, no taters, no eggs, no bacon!"

"He couldn't afford to do it." Yet, he was generous enough to ask us to send him the paper for \$1 and make him a present of 50 cents! Of all the 23,255 people in the county this kindly disposed individual is the only one with gall enough to ask us to send the paper at the old price—and we do not believe there is another in the whole county."

Y. W. C. A. MINSTREL SHOW AT RIVERSIDE

RIVERSIDE, June 16.—"Gentlemen, be seated." The only hitch in that will be that there will be no "men" in the Y. W. C. A. minstrel show to be held here tonight.

The show is directed by Z. Earl Meeker, who has collected 35 singers for the occasion.

Put Iron Hand on Huns If We Would Keep Peace Says Dr. Vera P. Gardner

"The selfish and aggressive German spirit is unbroken. They demand this and intend to get that, as of old. The Germans hate the Americans, there is no doubt about it. If we do not put an iron hand on Germany now, we will have lost the peace and so lost the war."

Written in Poland by Dr. Vera P. Gardner, daughter of the late Henri F. Gardner, and Mrs. Gardner, lived her girlhood days at Orange, graduated from Santa Ana High, then from Stanford University and then from Ann Arbor. She was one of the best known bacteriologists in the state and city bacteriologist of Los Angeles when she and her sister, Miss Margaret Gardner, an attorney, left for France with the Red Cross.

They were stopped and argued over again. Lack Certain Luxuries

"I wrote you from Berlin about the peaceful and prosperous condition of Germany. They lack certain luxuries—

were willing to trade two dozen eggs for a couple of bars of chocolate—but

are clean and warmly clad. They have fast horses and farming tools.

"The selfish and aggressive German spirit is unbroken—they demand this and intend to get that, as of old.

"Coming from the ruin of France, through peaceful and prosperous Germany, to starving Poland was an illuminating experience.

"As soon as we crossed the German border into Poland, everything was different. Children and even women were barefooted and in rags—pinched and starved, but smiling. Destitution is terrible here. The Germans stole everything they could take away—even the brass knobs from the doors and windows in this palace in which we live, the copper trolley wires, and lead connections from the radiators in the hospitals—this in the dead of winter—and they blew up the rest.

"What I think of the Germans has been better said by others.

Bound for Poland

"We left Paris April 16, in a special car tacked on to a Red Cross freight train, bound for Poland. We went via Northern France, Belgium and through Germany by way of Berlin.

"Since the armistice, the Gardner sisters have been most of the time at St. Nazaire. A few weeks ago Dr. Gardner went to Poland with the Red Cross Commission. She is now chief of the medical laboratories under the commission in Poland.

A part of a letter from Dr. Gardner, written at Warsaw, to relatives, in which deeply interesting experiences and observations are included, follows:

Red Cross in Poland

"Here in Poland, the Red Cross commission is doing real business. Colonel Bailey is commissioner. There are six departments, each headed by capable, real men, splendid fellows who co-operate with each other and accomplish a great deal.

"I work in the medical department, of course, and am chief of the laboratories. My central laboratory will be in Bielsko, a town of 100,000. Typhus is not a factor here, some cases of course, but of a light nature and nobody dies of that unless he is already starved to death, so I will be in no danger. I have what I need, so do not worry about me.

"The Polish people are more like Americans than the French, and are very likable. The climate is dry, sunny and much better for me than France. I already feel better for the change.

"I do not know how long we will stay here. Some say till July or August but it should be a year, at least. There lots of work, but it is worth doing, and I am happy and interested in it."

They took a vote, elected a committee, and decided to search our train, which they did, going from car to car, and, of course, finding nothing contraband, we were held there three nights and two days, and at various times it was "touch and go" as to what they would do with us.

"They came, once, prepared to loot the train. It was the queerest situation you ever saw. The German army captain, who was nominally in charge, had no influence at all. When he put in a word to let us proceed, they told him to "shut up or they would knock his head off."

"A sergeant, who had been in America, and spoke excellent English, had the most influence. He was smoothly polite—but could not recommend that we be allowed to proceed."

"If we went on, we were told that the German artillery would 'get us,' so the artillery being in charge of the soldiers. Finally we were allowed to turn back toward Berlin—were then routed through by the way taken by Haller's army and finally got through in the wake of the army, although we

Santa Ana Red Cross Is Thanked for \$8,500 Fund

In acknowledgement of the receipt of \$8500 from Santa Ana Chapter, American Red Cross, Fred Rafferty, secretary of the chapter, has received a letter from George Filmer manager of the Pacific division of the Red Cross, commanding the spirit of the chapter.

This money was part of the sum subscribed during the war drives of the Red Cross. Under the agreement under which it was subscribed, one-fourth of the money received was to go to local war work. When the drives were on a system was followed by which each chapter bought the materials it used. After the money was received, a new system was adopted under which materials for sewing, knitting and surgical dressings were furnished by the national organization to the chapters. There was then no call of any consequence upon the portion of the war fund retained by the chapters.

Believing that the money should be put to use instead of being held by the chapter, the directors of Santa Ana chapter voted to have \$8500 sent to

CALIFORNIANS TO PAY INCOME, PROFIT TAXES

SAN FRANCISCO, June 16.—More than 50,000 income and profit taxpayers in the First California District are expected to complete the unloading of some of their surplus wealth today, in the second installment account with Uncle Sam.

Collector of Internal Revenue Wardell announced that although the law requires payment before or on the 15th, payments completed today will not necessitate interest or penalties.

'DECORATED' SOLDIER JAILED AT VENICE

VENICE, Cal., June 16.—C. W. Sager, said to be from Saginaw, Mich., is under arrest here today charged with posing as a sergeant major of the U. S. Army and claiming decorations falsely. He is awaiting government action.

Sager had been widely honored here and in Pasadena. In the latter city he was the guest of Mr. and Mrs. H. C. Merritt.

DEMOCRATIC LEADERS DUE IN L. A. JUNE 25

LOS ANGELES, June 16.—Democratic leaders touring the country to prepare for the 1920 campaign, are due to reach Los Angeles June 25, according to word received at Democratic headquarters here today.

They will stay here two days and then leave for San Francisco and Portland.

Arrangements for a reception and banquet are being made here.

The party will be headed by Homer S. Cummings, chairman of the Democratic National Committee, and includes J. B. Kremer of Montana, S. B. Amidon of Kansas, E. G. Homan of Indiana, W. R. Hollister of Missouri, W. W. Marsh of Iowa, W. B. Jamison of Iowa, and Mrs. Geo. Bass of Illinois.

COUNTY HARBOR CELEBRATION PLANS FOR SATURDAY

Orange County and Progress Address Topic; Channel Illumination Proposed

This general rejoicing over approval of the \$500,000 Orange county harbor bonds last Tuesday is to be crystallized into a county harbor bond celebration at Balboa next Saturday afternoon and evening, June 21, according to plans definitely completed and just announced by the Balboa Carnival Association. To this celebration everybody in Orange county is invited.

The celebration program, just completed, is as follows:

2 p. m.—Reception to representatives of all the Associated communities of Orange county.

Overture by Santa Ana High School Cadet Band.

Address, "Orange County and Progress," by Clyde Bishop.

3 p. m.—Band concert, Santa Ana High School Cadet Band, playing on moving boat along the course of the bay.

3 to 6 p. m.—Dancing in pavilion.

Army aviators in review with seaplanes, alighting on and making flights from the bay.

Reception on submarine chaser.

Yacht club races on the bay.

9 p. m.—Water carnival, illuminated parade on bay. Cash prizes for best decorated boats to be given at close of parade, with first and second prizes for launches, row boats, and canoes.

10 p. m.—Illumination of proposed county harbor channel the full length of the bay.

Fireworks.

ORANGE COUNTY HAD 1874 MEN IN SERVICE

State Committee Makes Report on Lists As Given By Borree

According to figures compiled by the state committee on readjustment there were 1874 men from California in the various branches of war service.

The total number of men from California was 136,418. The county totals are given in a communication received today from J. T. Borree, chairman of the committee, and include the men who were drafted and those who volunteered in the army, navy, marine corps and the national guard.

General Borree stated, however, that these figures are considerably less than the number of men who actually entered the service, as names are continually being received at the adjutant general's office of men who entered the service voluntarily and whose names have never been reported. This increase, it is thought, will increase the state total by 6000.

The total of men entering the service from San Bernardino county was 2770; from San Diego, 4987; from Imperial, 2625; from Riverside, 1635; from Los Angeles, 23,464.

Former Long Beach

CHICAGO, June 16.—Police here today searched for Harry Wilson, 51, former Long Beach, Cal., real estate dealer, reported by his wife to have been missing since Friday.

Miss Wilson said she feared her husband had ended his life.

SAYS "NO CHURCH CAN AFFORD NOT TO ADVERTISE"

NOTED PRESBYTERIAN MINISTER WILL SPEAK TO BROTHERHOOD

Dr. Charles Steizle, publicity director of the Presbyterian church drive for a fund of \$40,000,000, recently announced in New York his belief that newspaper advertising should become a fixed policy of the church.

As a result of the drive a permanent policy of advertising to be paid for out of the annual budgets was strongly urged upon all Presbyterian churches by James Wootan at the Presbyterian General Assembly in St. Louis May 15 to 25. His report states that it is "good common sense" for the church to engage systematically in paid advertising with a view to arousing interest in church services and activities.

Rev. Steizle had a wide experience in Y. M. C. A. work in France, where for a time he was the Y. M. C. A. head.

Since his return from overseas he has been called to the pastorate of the Fifth Avenue Presbyterian Church, New York, considered the most influential Presbyterian Church in the world.

To this speaking at 8 o'clock everyone is invited.

MACCABEES, TAKE NOTICE

Santa Ana Tent No. 8, will meet here

after only on the second and fourth Mondays of each month. Next regular review is Monday evening, 23rd.

Here Girls Is Something Novel and Chic In Garb For Your Visit To Beach

'WINK OF SLEEP' AT CAR WHEEL CAUSES NEAR TRAGEDY

Lives of Seven People Endangered In Auto Turn-over on Irvine Blvd.

A "wink of sleep" for Wayne McGill of Orange at the wheel of a Hudson last night nearly resulted in a tragedy, the brief nap causing an accident that imperiled the lives of himself, his mother and five of his friends. The machine was wrecked but none of the occupants was hurt badly.

The party had been to Laguna Beach for a brief outing and was returning home about 10:30. The day's pleasure was suddenly interrupted by the overturning of the car.

McGill "dropped off" just for the moment. When he opened his eyes he found his car heading for a telephone pole by the side of the road. A sudden turn of the steering wheel sent the big machine over and square across the boulevard. The car turned over on its back, pinning some of the occupants so that they could not get out without assistance.

Motorcycle Officer O. K. Carr happened along just a minute after the accident and rendered assistance to the party.

The top acted as a support to the body of the heavy car and to this fact probably is due the escape of the occupants from serious injury.

Mrs. McGill was taken to her home on Tustin avenue, northeast of Tustin, by Carr.

Members of the auto party were Mrs. C. A. McGill, Wayne McGill, Mrs. Jennie Conner, Miss Addie Conner, Miss LuLu Robinson, Miss L. Robinson and Richard Sweet.

JUDGE GRUBBS LEAVES FOR HOME IN TEXAS

Judge V. W. Grubbs, who addressed the last meeting of the Associated Chambers of Commerce on the institution of an industrial school for girls in Orange county, has departed from Riverside for Texas. The Riverside Press mentions his departure as follows:

Baseball and General Sports

TUSTIN DEFEATS L.A. CAMBRIA SPRINGS

Callahan Pitches Air Tight Ball; Arambel Plays Fine Game

Perry Callahan pitched the Tustin team to victory yesterday afternoon and defeated the Cambria Springs team of Los Angeles eight to two. Eleven men were fanned by the boy phenomenon and none of the visitors was allowed to see first until the seventh.

Another feature of the game was the good ball playing by Arambel, Tustin right fielder. He made pretty catch, picking fly from between his feet, and shut the opposing team out of a couple of runs. Once with the bases full he knocked out a two-bagger and brought in two runs.

Following is the box-score:

	AB	R	H	E
Franklin, If	5	1	1	0
Woodward, 1b	5	0	1	0
Hinricks, cf	4	1	1	0
B. Lan Franco, 2b	4	2	2	0

ANAHEIM PIN SHARKS DEFEAT L. A. TEAM

ANAHEIM, June 16.—Anaheim pin shooters put this city on the bowling map of Southern California with a bump that took the wind out of the sails of one of the star quintets of Los Angeles—the Harris & Frank team. When the smoke of battle had cleared away the H. & F. aggregation was hik-ing for home and the score sheets showed only too well the reason for the sudden departure. The score was 2722 to 2682 with the Los Angeles crowd carrying the short end.

This 5-man contest will long be remembered among the bowling fans of the city. The game opened with the visitors taking the first set, 899 to 795. But after this the local crowd hit a stride the H. & F. crowd could not equal. Anaheim took the second game 867 to 853, putting the teams on an even basis. In the last and final game the local crowd had the visitors' number. The result was 930 to 1060, the 1060 representing Anaheim.

Watching the Scoreboard

Yesterday's hero—Benny Kauff. A mere matter of five hits in five tries and the winning run in that five to four Cub game.

The Braves and Reds were knotted, one all, when the game ended in the fifth. The game is "notted" in the records.

The White Sox know the feelings of the heir to an expected legacy. The Browns in a sizzling 1 to 0 game beat the Yanks, thereby dropping first place squarely into the laps of the Chicagoans.

Pinch hitting in the ninth by Myers gave Brooklyn the better of St. Louis, 3 to 2.

Detroit and Washington slugged and ran bases. Detroit got it, 8 to 5.

'Round Coast League Bases

Home runs: Crawford, Angels. By not allowing the Seals more than nine hits in two games, the Tigers won the series and the dual program, 4 to 3; 2 to 0.

The Angels took the series by winning both games Sunday, 4 to 3, and 6 to 1.

The Beavers hopped from seventh to sixth place by their double win over the Bees. Scores: 2 to 0; 6 to 4.

Two singles and a stolen base in the tenth inning won Sunday's bill for the Rainiers, 4 to 3. Bigbee held the Solons to six hits.

PORTERVILLE WHEAT PRICES TAKE DROP

PORTERVILLE, June 16.—Price of wheat took a sharp drop here the last of the week and quotations are now down to the basis of the government price of \$3.30 per hundred. Early shipments from this section, largely to poultrymen, were made on the basis of \$3.70 per sack. Harvest is now in progress in all parts of the district and ranchers are generally speaking anxious to unload their stocks.

FIGHTING KANSAS CHAPLAIN LENDS HIS AID TO Y.M.C.A. ATHLETIC PROGRAM FOR MEN OVERSEAS

EARL A. BLACKMAN

GREATEST FIELD IN SOUTHERN CALIFORNIA

Promising Oil Producing Regions Developed In Orange County; Others Failing

Brea Progress: In spite of the fact that there are more wells drilling, more wells producing, and more new wells being located every week, it is taxing the production to keep up with the demands.

A survey of the northern oil fields shows the production failing gradually, and there is very little new work being done. The fact of the matter is, the northern oil fields are considered to be pretty well drilled up.

The refinable oils come from the northern oil fields, and unless the production can be maintained and more territory opened up the state will be compelled to turn to Southern California for its supply.

Boxing holds a prominent part in the army and "Y" program, and the "Fighting Chaplain" of the 130th is one of the sport's best friends. As such, he holds an opinion exactly opposite to that of most of boxing's opponents.

"Boxing is the best form of physical exercise because it makes a man and not a beast," says the chaplain. "No mere physical superiority is necessary to be a successful boxer, a man must outguess and outwit his opponent."

"Boxing is the best form of physical exercise because it makes a man and not a beast," says the chaplain. "No mere physical superiority is necessary to be a successful boxer, a man must outguess and outwit his opponent."

DEMPSAY WON'T BOX MORE 'TILL FRIDAY

By H. C. HAMILTON
(United Press Staff Correspondent)

TOLEDO, Ohio, June 16.—There is every indication here today that Jack Dempsey would do no more boxing until Friday in preparation for his bout with Jess Willard. It will be Saturday before Trainer De Forrest and Manager Kearns will permit him to expose himself to clouts from his sparring partners.

Jess Willard is going on silently, ploddingly and consistently ahead with his training. The shimmery shivers the big champion has been showing, is giving way to the firmness of flesh which so distinguishes his superbly trained challenger.

Willard is the most self confident man the ring has ever had for a champion, bar none.

"I know just what is good for me and I will train my own way," he said to me yesterday during a fanning bee.

"No suggestion can alter my way of doing things. They say my sparring partners are no good, but I am satisfied. I don't believe I could get better men."

Jess admitted to me that the heat here gave him an awful time of it when he first took up his training camp duties.

"Why, when I first started in here, I thought several times I would faint in the ring. Seemed like I was sticking my head in an oven when I went under the hot sun. Now that has all passed away. I feel like the sun was my best friend. You can see that I have been doing lots more work and that I am able to go at a faster pace."

TITLE GOLF TOURNEY OPENS AT SPOKANE

SPOKANE, Wash., June 16.—The championship tourney of the Northwest Golf Association, opened at the Spokane Country Club this morning with starts in the open championship. Play started at 8 o'clock.

With Seattle making by far the largest representation, a total of 104 entries have so far been made. This is about half the number expected as they play progresses.

News that the California delegation will not attend has caused disappointment. No definite news of the coming of Chandler Egan, Jack Neville and Douglas Grant has been received and this is regarded as eliminating these cracks from the champion ship play.

From all showings to date the contest for the C. H. Davis, Jr., trophy will lie between the Seattle Golf Club and the Aberdeen Golf Club and the Jefferson Park Club of Seattle.

A Ruse
How did you manage to secure such a sweet tempered woman for a wife?

"I just managed to find out how long they had kept the same cook."—Baltimore American.

SEEKS WAYS TO FIGHT SUGAR BEET PEST

Announcement of Experimental Project Made at Farm Center's Picnic

That experiments seeking to discover means of controlling the sugar beet nematode, a serious pest in the sugar beet fields, are to be made upon a plot of ground in the lowlands near Huntington Beach, was one of the announcements made at the meeting of farmers of the Wintersburg and Buena Park districts at Huntington Beach last Saturday.

The announcement was made by Prof. D. G. Milbrath, employed by the United States Department of Agriculture, now stationed at Alhambra. Prof. Milbrath has been making a special study of nematodes for several years, both here and on the Atlantic coast. While no method of complete control has been found, flooding and sun-drying are known methods of reducing the nematode, while experiments have shown what crops are subject to the nematode and which are resistant.

On the experimental plot near Huntington Beach crops are to be grown for the purpose of making accurate study of the nematode, which is a tiny worm that infests soils. The work is to be done in co-operation with the Orange County Farm Bureau.

Farm Advisor Wahlberg was in charge of Saturday's program, which came following the picnic dinner of the Wintersburg and Buena Park farm centers.

R. L. Churchill, manager of the California Lima Bean Growers' Association, outlined the situation in regard to the necessity of getting control of the lima bean market. While independents are strong enough to beat down the prices, farmers will suffer. The details of the plan under which the association expects to be organized next year were given.

Rev. C. M. Ross of Wintersburg made a strong plea for the beautification of rural homes. He said that not only will a property that has trees, lawn and flowers about it sell for more than the bare yard, but an attractive home keeps young people on the farm. An attractive home is not so likely to be deserted by a young man, allured by the comforts of the man who lives in town, as is a place that is unattractive.

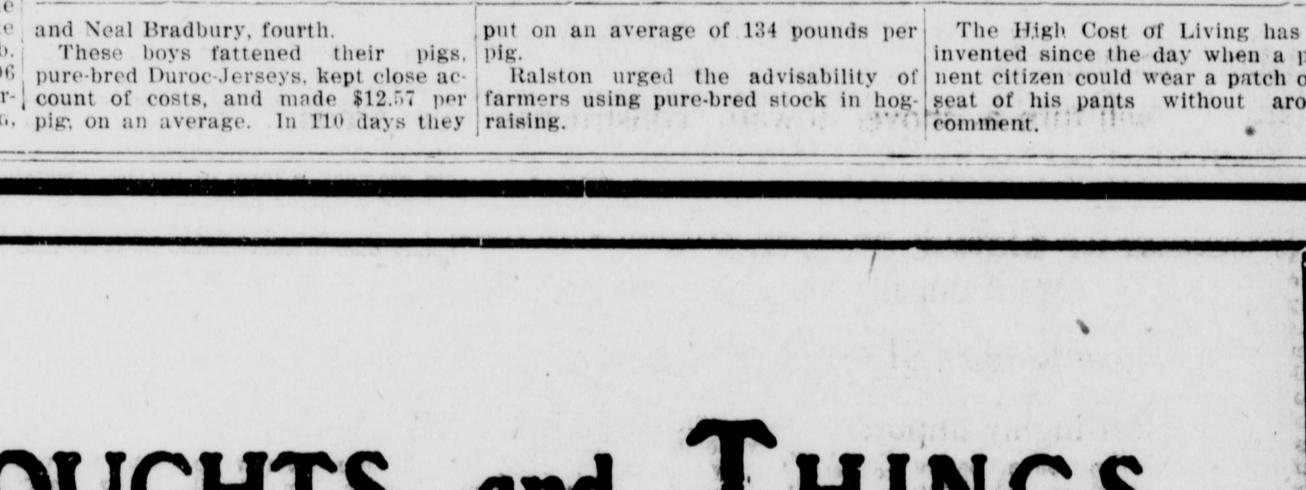

The success of the Boys' Pig Club conducted by the Huntington Beach high school was pointed out by R. W. Ralston of the University of California, state leader of boys' clubs, who on Saturday made up his report of the standing of the contestants in the Huntington Beach high school club. Glenn Byram was winner with 96 points out of a possible 100. Roy Morgan was second; Bennie Cox, third,

CRYSTAL CLEANING. COMPANY

Near City Hall L. B. Babbitt 207 No. Main St.

HAVE YOUR CLOTHES
CLEANED THE
CRYSTAL WAY.

The business of living, when boiled down to its clearest essence and all froth skimmed off, is just a matter of thinking.

Each of us is continually thinking ideas of our own and swapping them for the ideas of others. If there is a famine of outside ideas we shrivel up ourselves. Children with "nobody to play with" are unhappy and unmanageable.

From thinking with our heads to doing with our hands is but a little step and then our thoughts become things.

It is because men of America are so unfettered in their thinking and doing that this country is such a fine place to live in. It is also because these thoughts are freely radiated and spread broadcast, in the distribution of manufactured things and in the distribution of the facts about them (advertising), that this country is such a fine place to live in.

The originator of an idea is not much better off than before he originated it till he gets some one else to absorb it and enjoy it and benefit by it.

The man or woman surrounded by better thoughts and things but who pays not the slightest attention to them is not much better off than the one with "nobody to play with."

The advertisements in the papers are thoughts—telling you about the ideas that other men and women have thought out for your happiness. Read the ads. They are the voices from hundreds of thousands of looms, shops, foundries, studios, laboratories, where millions of minds are turning pleasant thoughts into worth while things for your comfort.

The High Cost of Living has been invented since the day when a prominent citizen could wear a patch on the seat of his pants without arousing comment.

PUBLIC SPIRITED CALIFORNIANS

If a paved, year-round highway is to be constructed from Merced to Yosemite National Park, opening that scenic wonderland to the world every day in the year, YOU must help now.

You are asked by the Yosemite Valley Highway Association to purchase one or more of the \$5 certificates of motor vehicle entrance to Yosemite.

Two hundred thousand certificates have been issued. Every one of them must be purchased by Californians before the State Highway Commission will turn a shovel toward constructing the scenic boulevard.

With but five days remaining in the Statewide drive to raise \$1,000,000 to insure the success of this highly important project, 100,000 of the motor vehicle certificates remain unsold. They must be sold by Saturday night.

The total cost of the highway will be \$1,700,000. Seven hundred thousand dollars has been assured from Federal and State sources. You are asked to play a definite part in raising the \$1,000,000 still needed.

The Federal government will redeem the entry certificates for 10 years, including the present season. Each certificate will be good for motor vehicle entry and re-entry during any one season. No certificate costs more than \$5. All are transferable.

The proposed highway will have a maximum elevation of 2965 feet and a maximum grade of 7 per cent. It will be 70 miles in length and below the snowline at all seasons.

The scenic roadway, construction experts declare, will be one of the best in the world. It will capitalize California's greatest scenic asset.

Hundreds of returned fighting men will be employed in constructing the roadway, the State Highway Commission has declared. Work will be undertaken as soon as the money needed is at hand.

The building of the highway is a public duty in which you are asked to share.

Certificates are on sale by the Santa Ana Chamber of Commerce, by the Auto Club of Southern California and all its branches, by leading automobile dealers throughout Orange county and all other recognized public institutions

METHODISTS TO RALLY AT BIG COLUMBUS MEET

Many Vacation Trips Planned from Coast

In celebration of Methodism raising, within the period of one week, \$105,000,000 in the United States, the Methodist Missionary Centenary of Columbus, Ohio, will open on June 20th, the celebration being a rallying point for the Methodists of the world.

A daily attendance of between one hundred thousand and one hundred and fifty thousand is assured by reservations that have been made from all quarters of the globe for hotel accommodations. The United States Railroad Administration, beginning June 14th, will establish excursion rates of one and one-third fare for the round trip from all points in this country.

With church leaders there will gather at Columbus thousands of laymen of the Methodist Church, particularly from the rural communities who are planning to make the journey to Columbus by automobile as a vacation trip. The celebration comes at just the

"WAYFARER" IN CELEBRATION PAGEANT.

Henry Herbert, noted Shakespearean artist and Mansin in "The Servant in the House," creates lead in Methodist Celebration Pageant.

proper time for the agriculturists and fruit growers. Accommodations have been prepared to take care of 50,000 automobiles and experts are now engaged in assembling and routing groups of the motor owners. One caravan, the largest so far reported, will start from Springfield, Illinois, with one thousand automobiles enlisted.

Famed Artists to Appear.

Announcement is made today of the cast of one of the most ambitious pageants presented in recent years, "The Wayfarer," a majestic, religious spectacle presented by note artists and singers.

The title role of Wayfarer will be portrayed by Mr. Henry Herbert, the well-known Shakespearean interpreter, formerly associated with the late Sir Herbert Tree and more recently with Sir Frank Benson in the production of the Shakespeare Memorial at Stratford-on-Avon.

Mme. Blanche Turka creates the role of Understanding, who leads Wayfarer from scenes of modern carnage on European battle fields back to the scenes of Babylonian captivity and then forward through the episodes of Christ's birth, acclamation, crucifixion and resurrection, down to the going forth of the missionaries to the far places of the world. Sixteen impressive scenes are embraced in the pilgrimage upon which Understanding takes Wayfarer before he sees the light.

The pageant will be filmed by David W. Griffith, probably the world's foremost motion picture producer, without cost, in the memory of his mother, who was a Methodist.

The pageant is being prepared for production under the personal direction of Dr. James E. Crowley, assisted by Lila Agnew Stewart, a pageant coach of wide experience.

Two Thousand In Pageant.

The great spectacular production has one thousand persons in the various scenes and in addition will have a seated chorus of one thousand voices.

Among other very noted American singers who will participate are Theo Karle, recognized by his contemporaries as one of the greatest American tenors; Bernard Ferguson, noted American baritone; Helen Newitt, dramatic lyric soprano, and Viola Ellis, contralto, whose voice is described by experts as "one of the biggest outside the Metropolitan Opera House."

Whole villages have been transported from Africa, China, India and other countries showing the operation of the Methodist Missions abroad in preaching the Gospel and promoting education and health among the non-Christian peoples.

The celebration is under the direction of Dr. S. Earl Taylor, layman of the Methodist Church, to whom is credited the origin of the entire Methodist Centenary program.

When a horse gnaws the manger, or the sides of the stall, or chews his halter rope, rub on some mutton tallow. The taste of it is very disagreeable to him; a few applications will break him of this habit.

SOUTHERN CALIFORNIA

LONG BEACH, June 16.—The annual convention of the Christian Missionary Society of Southern California, which brings here each summer representatives of all churches of the Christian denomination in this section, will be held here August 4 to 10, it was announced today. Dr. A. B. Abbott of St. Louis, Mo., prominent disciple, will be a principal speaker.

POMONA, June 16.—No longer will the members of the Pomona fire department halt at smoke and smudge, for all of its members have been equipped with army gas masks and have taken regular practice in their use, with a result that they can get them on and adjusted in a remarkably short space of time.

LONG BEACH, June 16.—Modern Woodmen of America, about 3000 strong, will hold a three-day picnic here, July 4, 5 and 6. Instead of occupying tents at their outing this year, they will take rooms in hotels. A picnic dinner July 5 and programs of sports and drills will be chief features of the outing.

PASADENA, June 16.—The eleventh anniversary of the organization of the Westminster Presbyterian Church of North Pasadena was suitably observed by that congregation yesterday. The Y. M. C. A. Choral Club, under direction of Heber Coleman, was present to give a special musical program, and the pastor, the Rev. Arthur O. Pritchard, delivered a sermon on "The Church of the Living God."

SANTA MONICA BEACH, June 16.—Seventy-two students will be graduated from the Santa Monica High School Thursday, June 26. This is one of the largest graduating classes in the history of the school, and is unusual also for the prevailing high standard of scholarship among its members.

SANTA BARBARA, June 16.—Community drama is to be introduced into Santa Barbara. For the purpose a number of leading Montecito and Santa Barbara citizens have united to bring here Samuel J. Humes, director of the Greek Theater of the University of California.

REDLANDS, June 16.—Commencement week at the University of Redlands will begin Friday evening, June 20, when the commencement concert of the college of fine arts will be given at the First Baptist Church, under the direction of Charles Edward Hubach, dean of this college.

MONROVIA, June 16.—Increase of teachers' salaries, amounting to \$200 a year in the grades, and a little more than that in the High School, was announced by the school board.

PORTERVILLE, June 16.—Elimination of the steep grades for automobile traffic to General Grant Park will be accomplished by the construction of a new road into the park on which work is under way up the Kaweah River. This highway, on which the maximum grade will be 5 per cent, will be used exclusively for entrance to the park and will open up a stretch of new and beautiful scenic features of the park.

OXNARD, June 16.—That this city may suffer from a shortage of water before the summer is over unless the water is checked, was the statement made to the City Trustees last evening by T. E. Walker, superintendent of the municipal water department.

BAKERSFIELD, June 16.—The fate of at least one saloon building in Bakersfield on July 1 has been decided. The Schurr Building, one of the landmarks of the city, which at present houses a saloon and pool hall, has been purchased by H. J. Brandt, president of the Board of Trade, for \$45,000, and will be remodeled into an up-to-date department store, replacing the wet goods with dry goods.

YONKERS, June 16.—The wives, sweethearts and mothers at home.

PICTURE LOVERS GO TO TOUR YOSEMITE

FRESNO, June 14.—Kodak and camera will compete in picturing Yosemite Valley in the excursion which left here today for the famous California Park.

Under the direction of Mervin Silberstein, 300 picture lovers have departed for Camp Yosemite today.

For Bungalow Courts

Men have commenced tearing down the old Methodist church building to make way for the new bungalow courts of the Anaheim Improvement Company. The contract for the ten bungalows has been let to the Godber Construction Company of Pasadena.

Some of the lumber in the church building, though forty years old, is well preserved and will be used in putting up some houses by the Improvement Company elsewhere. The Sunday school bungalows will be built into two double-bungalow houses on a lot next to the Adventist church on Adele street. The old parsonage will be moved onto a lot on Kroeger street.

BIG EXCURSION CUT FOR TROOP MOVEMENT

WASHINGTON, June 14.—Drastic reductions in summer and holiday excursions were ordered today by Railroad Director Hines to make way for the biggest troop movement in the history of the country.

For the same reason, Hines' office revealed, a special train has been denied New York fight fans who wanted to go to Toledo for the Willard-Dempsey battle July 4. Similar requests from other cities will be denied also.

Eiks to Build

The Anaheim Eiks Lodge has incorporated for \$75,000 and as soon as permit is obtained from the grand lodge, expected in four to six weeks, the work of starting a \$75,000 clubhouse will be started. The clubhouse is planned to cost \$75,000 with furnishings, in addition to the cost of the lot on North Lemon street.

STANFORD SOLDIERS HONORED AT PAGEANT

STANFORD UNIVERSITY, June 14.—Students of Stanford University participated in a monster pageant in celebration of the return of former members of the school who have been in service. The pageant is of patriotic nature and is designated "Service."

The pageant, as given on the campus today, showed in various episodes, the coming of the missions, the landing of Portola, founding of the university, the present spirit of service and terminating with the "reconstruction period."

WILDROOT KEEPS MY HAIR HEALTHY

"By using Wildroot regularly, I keep my scalp entirely free from the itching crust of dandruff, the cause of most hair trouble. I owe my luxuriant hair—the envy of my friends—to this guaranteed dandruff remedy."

AMERICAN GIRLS BEST, SOLDIERS DECLARE

MISS MILDRED BALLOU

Worker For Y. M. C. A. Says Doughboys Tell Her All Their Troubles

PARIS, June 14.—The doughboys had to go three thousand miles away from home to win, but the girls didn't. Without moving a step, they have scored the biggest American victory of all. It is the overwhelming vote of the A. E. F., according to Miss Mildred Ballou, a New York girl working in the Y. M. C. A.'s big leave area at Menton, France, that America's girls—married, about to be, or "free"—excel all others. In brief, pointed doughboy, "They're the goods!"

Miss Ballou, moreover, avers that the longing of overseas husbands and prospective ones for a quick return is expressed in terms of these same girls and women at home. And of the two, the married man is the worse. The biggest home-sick army in the world's history has talked about the girls he left behind it until this "Y" girl has come to the only decision possible—"there are some mighty wonderful wives and girls at home, I can say."

"The 'Y' girl," writes Miss Ballou, "is a receiver for all praises, complaints and blame. We listen and listen. And the boys also have come to believe that they see in us some resemblance to everyone they ever knew back home. I have looked like wife, sister, sweetheart and mother. All that is left is mother-in-law, or grandmother."

"We dance every night. The officers lance on Monday nights and an hour or so in the afternoon. I spend most of my time with the men. They need and want us. Incidentally, they don't flirt and make love to us."

"Our big dances are a scream. It is done by card system, each man holding one card, with 'one,' 'two,' or 'three' on it. The 'Y' director blows a whistle and you start off with 'one.' In two minutes the whistle blows again and 'two' steps in (to be truthful, madly rushes to beat the other fellow, for 'first come, first served.') After another two minutes, 'three' gets his inning, and then we rest for two minutes."

"I have a pair of tan shoes that plainly show where every hob nail has been placed."

The Y. M. C. A. girls also run open house on Sunday afternoon, with plenty of refreshments and an orchestra. Then there is a huge theater, and movies, free to all; billiard rooms, game rooms and socials and all sorts of evening amusements. During the day the men are in the hills on tram rides or donkey rides.

Yet, in the first quiet moment, the boys begin again on their favorite topic—the wives, sweethearts and mothers at home.

BREA PROGRESS: The great hope of the oil industry now settles around the new Chapman and Kramer fields as they are now the most promising for the addition of a great field and the raising of production to big figures.

Unless Southern California is lucky enough to develop more high gravity oil with a higher gasoline content, the chemists and refinery experts will be called upon to improve the methods of cracking and getting more out of the oils now produced. If not, the day is coming and that not far off when motor fuel is going to be short. There is no hope for any reduction in the price of gasoline, but further rises in the price of crude oil are assured.

DR. MAGILL, OSTEOPATHY, PHONE 956-W.

WHITE-SHELLED EGG PRODUCERS

Poultry of the Mediterranean or eggs breeds are best suited for the production of white-shelled eggs. Representatives of this class are bred largely for the production of eggs rather than for meat production. Among the popular breeds of this class are: Leghorn, Minorca, Ancona, and Andalusian.

One of the outstanding characteristics of the egg breeds is the fact that they are classed as non-setters. That is, as a rule they do not become broody and hatch their eggs. When fowls of this class are kept, artificial incubation and brooding are usually employed.

MAGNIFICENT NEW LABORATORY HAS DAILY CAPACITY OF 36,000 BOTTLES

WHAT IS SAID TO BE ONE OF THE LARGEST PHARMACEUTICAL LABORATORIES IN THE UNITED STATES HAS BEEN COMPLETED AT DAYTON, OHIO, FOR THE MANUFACTURE OF TANLAC, THE WELL-KNOWN MEDICINE, WHICH ACCORDING TO RECENT REPORTS IS NOW HAVING THE LARGEST SALE OF ANY MEDICINE OF ITS KIND IN THE WORLD.

THE ERECTION OF THE NEW PLANT WAS MADE NECESSARY BY THE RAPID GROWTH OF THE BUSINESS, AS THE OLDER PLANT WAS FOUND TO BE WHOLLY INADEQUATE TO SUPPLY THE EVER-INCREASING DEMAND WHICH AT THE PRESENT RATE OF SALE WILL AMOUNT TO MORE THAN FIVE MILLION BOTTLES FOR THE PRESENT YEAR ALONE.

BY THE ERECTION OF THIS PLANT THE MANUFACTURERS OF TANLAC ARE GIVING TO THE WORLD JUST ONE MORE EVIDENCE OF THE REMARKABLE GROWTH AND EXPANSION OF THEIR BUSINESS, AND OF THEIR ABSOLUTE CONFIDENCE IN ITS FUTURE.

THIS ANNOUNCEMENT WILL BE READ WITH INTEREST NOT ONLY BY THE MANY THOUSANDS OF TANLAC AGENTS SCATTERED THROUGHOUT EVERY STATE OF THE UNION AND THROUGHOUT CANADA, BUT TO THE MILLIONS WHO HAVE USED IT BENEFICIALLY AS WELL.

THE NEW BUILDING OCCUPIES 60,000 SQUARE FEET OF FLOOR SPACE. IT IS SIX STOREYS IN HEIGHT, PRIMARILY FIRE-PROOF THROUGHOUT, AND IS OF STRIKING ARCHITECTURAL DESIGN. IT ALSO HAS PRIVATE RAILWAY FACILITIES.

THIS BEAUTIFUL NEW STRUCTURE NOW STANDS IN STRIKING CONTRAST BEHIND THE OLDER BUILDING WHERE TANLAC WAS FIRST MADE.

VISITORS TO THE LABORATORIES ARE STRONGLY IMPRESSED WITH THE EXTREMELY MODERN CHARACTER OF THE EQUIPMENT. EVERYTHING IS PROVIDED AND SPLENDIDLY ARRANGED TO PROMOTE SYSTEMATIC AND RAPID PRODUCTION.

THESE NEW FACILITIES GIVE A DAILY CAPACITY OF 36,000 BOTTLES, BUT AS TANLAC IS RAPIDLY BEING INTRODUCED INTO FOREIGN COUNTRIES IT IS PROBABLY ONLY A QUESTION OF A FEW YEARS BEFORE EVEN LARGE FACILITIES WILL BECOME NECESSARY.

WHILE THE MANUFACTURERS ARE NECESSARILY WORKING FOR CAPACITY PRODUCTION, IT IS A FUNDAMENTAL RULE OF THE TANLAC LABORATORIES THAT THE QUALITY OF THE MEDICINE SHALL NEVER BE SACRIFICED TO SECURE QUANTITY OUTPUT.

UNIFORM QUALITY IS GUARANTEED BY A SERIES OF CAREFUL INSPECTIONS BY EXPORT CHEMISTS, FROM THE TIME THE TANLAC HERBS AND BARKS ARE RECEIVED IN THEIR ROUGH STATE FROM ALL PARTS OF THE GLOBE UNTIL THEIR MEDICINAL PROPERTIES HAVE BEEN EXTRACTED BY THE MOST APPROVED PROCESSES. THE FINISHED MEDICINE IS THEN BOTTLED, LABELLED, AND SHIPPED OUT TO THE TENS OF THOUSANDS OF DRUGGISTS THROUGHOUT THE UNITED STATES AND CANADA, TO SUPPLY A DEMAND NEVER BEFORE EQUALLED FOR THIS OR ANY OTHER MEDICINE.

THE EXECUTIVE SALES OFFICES ARE LOCATED IN ATLANTA, GEORGIA, AND OCCUPY ALMOST AN ENTIRE FLOOR OF THE FOURTH NATIONAL BANK BUILDING OF THAT CITY.

TANLAC IS SOLD IN SANTA ANA BY ROWLEY DRUG CO., IN FULLERTON BY G. W. FINCH, IN LA HABRA BY R. H. RIGDON'S PHARMACY, IN ORANGE BY DITTMER'S PHARMACY, IN PLACENTIA BY TUSIN DRUG CO., IN BREA BY TANLAC PHARMACY, IN BUENA PARK BY REGAL DRUG CO., IN GARDEN GROVE BY O. H. ANDERSON, AND IN LAGUNA BY THE LAGUNA BEACH PHARMACY.—ADV.

News Notes From This Week's Church Bulletins

First Methodist

The baccalaureate service for the graduating class of the high school will be held in this church next Sunday evening, Rev. A. T. O'Rear will preach the sermon.

Union evening services will be held by all the churches of Santa Ana during the month of August. But thanks to the consideration and courtesy of the Ministerial Union we will continue our own program of evening services for July.

Mrs. Ella S. McMillan, one of our choice spiritual members, and faithful visitor of the Home Department, and a loyal member of all the societies of the church, left on Tuesday to visit her sons in Kansas.

Major John Wehrly is home. We congratulate him on his well earned promotion, and assure him we admire his patriotism and service to humanity. The family, the church and the community are glad to welcome him back to their fellowship and service.

The Northwest section of the Ladies' Aid will meet Friday afternoon with Mrs. Earl L. Mathews, 810 North Ross. This is the regular meeting, but it will also be a farewell reception to Mrs. C. R. Gilbert. A good time is assured, and a large attendance expected.

First Presbyterian

The postponed meeting of the W. C. T. U. will be held Tuesday at 2:30 at the home of Mrs. A. N. Zerman, 505 South Sycamore.

The Brotherhood of this church will tender a reception and dinner to our returned soldiers and sailors at 6:15 on Tuesday evening of this week. After the dinner at 8 o'clock, Dr. Robert Freeman will give an address in the church auditorium, to which the Brotherhood invite all of our people.

The regular meeting of the Ladies' Aid will be held Wednesday at 2:30 in the church. Mrs. Montgomery is to give something of the "Romances of Our California Missions." This will be a rare treat.

A new missionary society has been formed among the young ladies of our church. It is called the "Estella Daniel Chapter of the Westminster Guild." The chapter meets on the third Wednesday in each month. Any young ladies over 18 years of age who are interested, are invited to meet with us next Wednesday in this church at 7:30 p.m. The present officers are: Irma Curry, president; Bessie Lewis, vice-president; Lula Ott, secretary; Nancy Elder, treasurer; Mrs. E. P. Stafford and Mrs. W. W. Anderson, patronesses.

Church devotional service Thursday evening at 7:30. Subject, "The Christian's Peace."

The Light Bearers will meet in the church at 2:30 Saturday afternoon. All children are invited to be present. There will be story telling and refreshments will be served.

First Congregational

The Missionary department of the Woman's Union will meet on Wednesday afternoon at the home of Mrs. P. L. Tople, 320 South Main street. Mrs. Watson will conduct the devotional service. Mrs. A. J. Crookshank will review chapter 3 of "The Path of Labor." Music committee will provide music. The hostess will be assisted by Mesdames R. E. Miles and J. G. Mitchell. Ladies are requested to bring their contributions for the box to be sent to Miss Allen. Sunday school pupils will please bring theirs next Sunday.

The Advisory board will meet on Thursday evening. Supper will be served at 6:30 p.m. Wives or husbands of the members of the board are invited to come also. This will probably be the last meeting of the board before the summer vacation. On account of the Advisory board meeting on Thursday evening the usual mid-week service will be omitted.

California's Good Roads Increase Farm Production

In considering the question of the value of good roads to a country, one of the most important, if not the most important of all considerations, is the question of the influence exerted by such highways on agriculture.

The good roads system now in use in Southern California has been responsible, together with irrigation, for the enormous increase of agricultural products in the southern portion of the state.

In 1918, the crop report for the districts south of the Tehachapi aggregated the sum of \$124,587,500. This included one item of \$15,000,000 for canned fruits and vegetables. To those people outside of the state, no clear conception of the immense value of the agricultural industry in Southern California has, as yet, been generally given out. Too often the impression is spread that the good roads of the state, and of the southern portion of the state, are principally boulevards for the tourists, the sportsmen, and the well-to-do citizens, who can afford to use them for their good purposes. Nothing could be further from the truth.

Motors, motor trucks and motor trailers are being used and will continue to be used in greater numbers than ever for the simple reason that they are more economic, and more efficient in every sense of the word. They are already doing wonders in the way of increasing the amount and value of farm crops everywhere.

Good roads and motor vehicles have, indeed, revolutionized farming in this portion of the state. The opportunity of the various counties in Southern California to vote for the good roads bond issue of July 1 is an opportunity which it is believed will be grasped most eagerly by every man and woman engaged in agricultural pursuits.

Good roads are not an experiment in Southern California. They have proven their immense value to everyone; and notably to the agricultural portions of the country. Some of the advantages accruing from good roads to agricultural communities which have not hitherto been enumerated are the opportunities afforded for church-going, the facilities extended to the school children, extension and perfecting of the rural postal road system, and the opportunities afforded both the farmers and the farming communities to visit and become acquainted with one another, and to combine their efforts for the improvement of agricultural conditions in their different sections of the country.

Even irrigation is largely dependent for its success upon the good roads. The transportation of the material for the building of dams and the installation of irrigation systems was and is carried on over the magnificent highways extending through Southern California at a cost of many hundreds and thousands of dollars less annually than would be the case under an ordinary country road system. Indeed, it is unthinkable that any ordinary road system would have sufficed in Southern California to have brought the country anywhere near to its present eminence as an agricultural center.

Farmers coming here from the far north (apart from the coast states), from the middle west and further west, and from the states of the east and north along the Atlantic seaboard are literally struck dumb with astonishment at the superb system of roads which exists in Southern California. It is this system which sends yearly produce values soaring into the millions in this part of the state. For example: The value of the orange crop in 1918 was \$38,000,000. The value of the cotton crop was \$28,000,000. The value of the bean crop was \$26,400,000. The value of the hay and fodder crop was \$20,775,410. Here are four items ranging over \$20,000,000 each in value. The alfalfa crop is \$18,500,000, the barley crop of \$13,516,399, the canned fruits and vegetables of \$15,000,000, the corn crop of \$12,719,000, and the lemon crop of \$15,000,000 makes a second set of figures showing five items of a value of over \$12,000,000 each. The value of the walnut crop of \$5,000,000, sugar, \$3,525,936; cantaloupes, \$4,500,000; potatoes, \$4,513,622; peaches, \$3,711,000; lettuce, \$3,015,000; beets, \$3,000,000, and butter, \$4,500,000 are lesser items, but still most impressive as showing the enormous amount of produce raised in the southern portion of the state.

Barley, butter, carrots, corn, hay and fodder, are practically state crops, raised in all the counties. The future of agriculture in Southern California is dependent upon good roads to an extent which it would be impossible to figure out exactly, but which extends into and takes in every branch of the business itself, and each and every branch and every business directly or indirectly affected by agriculture.

SUPPORT IMPROVEMENTS

That the people of Southern California realize this to the fullest extent is evidenced by their hearty support of good road movements everywhere. Not merely in the aid and assistance they have given to the state bond issues, but by the independent movements supported in various counties and carried to a successful conclusion in the matter of road building. California is peculiarly fortunate, climatically, in its advantages over nearly every state in the Union as to the building of roads. Any climate which subjects highways to violent extremes of heat and cold, together with cracking up, by freezing and thawing in the spring months, is a climate which compels the expenditure of vast sums of money to keep the roads in condition.

California, and particularly Southern California, has undeniably the finest climate in the world, both as to economy in the building of roads, and in the maintenance of such roads after being once constructed. There are no violent extremes of heat and cold here, nor are there alternate periods of freezing and thawing to crack and break up the road surfaces. While no climate is an absolutely perfect one, the climate of Southern California is about as near perfect as any that was ever handed down by the weather clerk.

This matter of climate, also, has a great advantage in that roads can be built or repaired at any season of the year. Climatic conditions, also, allow of all Southern California roads being usable at any period of the year. This enhances the value of the roads to the farmer, fruit grower, dairyman, poultryman, the raiser of grain, the stock-raiser, the apiculturist, the raiser of vegetables and all other men engaged in agriculture or stock-raising. It means swift, safe, and comparatively

WAR GARDENS TO BE PERMANENT PEACE ASSET

Commission Ends Its Work But People Expected to Continue Plan

WASHINGTON, June 14.—Its war work completed by organizing the soldiers of the soil for another record breaking year of food production, f. o. b. the kitchen door, the National War Garden Commission announces that its activities have ended.

"The war time emergency has passed," said President Charles Lathrop Peck, who organized the commission six weeks before the United States entered the war. "The commission now concludes its labors after mobilizing the Victory gardeners of the United States for the first year of peace. Returns from all over the country show that the war gardens will become permanent peace gardens and that this newly created source of food supply will be a lasting factor in feeding the world. After meeting the war time call of General Pershing to 'keep the food coming,' gardening becomes a national habit."

Motors, motor trucks and motor trailers are being used and will continue to be used in greater numbers than ever for the simple reason that they are more economic, and more efficient in every sense of the word. They are already doing wonders in the way of increasing the amount and value of farm crops everywhere.

Good roads and motor vehicles have, indeed, revolutionized farming in this portion of the state. The opportunity of the various counties in Southern California to vote for the good roads bond issue of July 1 is an opportunity which it is believed will be grasped most eagerly by every man and woman engaged in agricultural pursuits.

News from Orange County Towns

GOOD ROADS LIKE R. R. PROBLEM YEARS AGO

Lower Motor Transportation Costs Means Lower Living Costs

"Along with the great national movement for better highways comes the question of weight of loads, speed, and many other factors," says a local booster for the state road bond issue.

"In the solution of the matter, plain, ordinary common-sense should prevail. Unimproved roads, in good weather when they are dry and sound, can stand a great deal of traffic with little or no damage. They can even bear tremendous loads if the width of the tire is sufficient. When these roads are solid, big steam traction engines, with threshing machines or corn shellers, run over them with no damage; in fact, with benefit, as they act like rollers."

Moderately improved roads likewise can stand much traffic in good weather. The big trouble with these roads is that they are not what can be called all-year round roads. They should be improved to meet the normal requirements of traffic, so that full benefit may be derived from them at all times.

Large Loads, Lower Prices

The weight of the load should be determined on the basis of width of tires. Routes between large cities or important commercial and industrial centers serve an enormous tonnage, and the larger the units in which this tonnage is hauled the greater the economy of hauling. These routes are main arteries of traffic, and anything which increases the cost of transportation on them is paid for by the people, regardless of how far they may be from these main arteries. When it is taken into consideration that a 50 per cent increase in the size of the unit hauled makes a 15 per cent decrease in the cost of transportation, the matter becomes one of great economic importance with tonnage running up into the millions.

"On these roads the weight is fully taken care of by the 800-pound limit per inch width of tire. For every 800 pounds, an inch is added to the bearing surface of the tires. With the addition of a trailer the weight of the load can be doubled without doubling the strain on the road. You simply add to the wheel base. The load, while greater, is distributed over more wheels of proportionate tire width. A striking illustration of this is given by our roads."

Extra Bearing Surface

"While heavy rolling stock, such as the big compound engines which are now used on our railroads, are very much heavier than the rolling stock of years ago, the weight per inch of bearing surface has not been greatly increased. This has been met by putting extra bearing surface under the weight. For instance, the big engines now have 16 driving wheels, whereas the early engines had only four."

"It would have been as sensible fifty years ago to have prohibited the use of locomotives larger than the little four-wheel drivers, as it would be today to limit the weight of the motor truck on any other basis than tire width, and the number of wheels under the weight, which in the case of our large locomotives gives several hundred per cent greater hauling capacity with probably only 100 per cent greater weight of rail. Without the development of the large locomotive and the increased size of railroad cars, freight rates would probably be double what they are now. If we set an artificial limit on motor trucks, we are handicapping what is fast becoming an important means of transportation, and adding to the cost of every article of food or clothing we use, and placing a generally greater economic burden on the country. We must build the road to carry the load."

RIVERSIDE CLUB TO ENLARGE GOLF LINKS

RIVERSIDE, June 16.—The Victoria Club is negotiating with the city for the purchase of twenty acres of land adjoining the golf links in the Tequesquite Arroyo, which it is planning to make a permanent addition to the club's holdings. The property has been held by the club under a five year's lease and has been used as an extension of the links, but the club does not feel warranted in making improvements contemplated unless it acquires the land. The tract was acquired by the city in the purchase of the local water system a number of years ago, and it is proposed that the right to develop water shall be retained by the water department.

Did it ever occur to you why there were so few used Reo Cars in the used car market? Think it over, then look out on the street. There are all the old Reo Cars still in use by their original owners who still carry a very contented look of perfect satisfaction. There is a reason. Was a Auto Co.

FULLERTON PUTS ALHAMBRA OUT OF RUNNING

County Team Moves Up a Notch Near Southern California Championship

FULLERTON, June 16.—At Pomona high school grounds Fullerton eliminated the shabby Alhambra high school team from the running for the Southern California championship in baseball, winning the game by the score of 6 to 4.

The contest was a "rouser." Both teams were known to be fighting aggregations, and Alhambra was considered by many to be the better organization, as that team is well balanced. The teams played true to expectations, but Fullerton was the better in the pinches—and that tells the story of the game. As the coach has been telling the boys, the team that holds together will make itself by forgetting a mistake as soon as it is made, thinking only of what can be done next time, and that accounts for the Fullerton victory.

Excitement was high and the betting favored Alhambra, but Fullerton upset the dope and now there is but one team between it and the championship. With the boys hitting and fielding as they now are it looks like the Spaulding trophy will come to Fullerton. Pasadena's going great, and to win, Fullerton must go some, but the terrors are gritty and are recognized as a dangerous crowd, especially when in a corner. The score:

R.H.E.
Fullerton .0 0 0 2 0 4 0 0—6 9 3
Alhambra .0 0 0 2 0 0 0 2 0—4 5 2
Batteries—A. Hawkins and McDermont; Atwood and Wolford.

KERN COUNTY POTATO CROP GOING TO L. A.

BAKERSFIELD, June 16.—Practically the entire potato crop of Kern county will go to the Los Angeles market this year, through the California Vegetable Union. George H. Peters of Arvin, the potato king of this country, has been in Los Angeles for several days, arranging the shipments of the tubers, which will start about June 20. The Weed Patch district alone will ship more than fifty cars of potatoes to the southern market.

NAB FIFTY AUTOISTS FOR TOO MUCH NOISE

VENICE, June 16.—Chief of Police Loomis of Venice has declared war on noisy auto parties in that city. Open mufflers have been complained of by the residents at the beach. Drivers hurrying back to this city during the early morning hours have been reported to police headquarters as the noisy ones. As a result of this campaign against drivers with the mufflers of their cars open, more than fifty arrests were made Saturday night and last night. In every instance the arrests were made on the Speedway near the line that divides Venice from Santa Monica.

Why not have your Summer Home Here?

FAMILY SURPRISED BY SOLDIER AT TALBERT

TALBERT, June 16.—After nineteen months of army service, a part of which he spent on the Argonne front, Tom Gisler received his discharge on June 9th and arrived home Wednesday. His coming was a surprise to his family only that morning in which he said he hoped to be home by July 1st, so when he called up from Huntington Beach for them to come after him, the surprise was complete. Discharge proceedings had suddenly speeded up so he came near beating his letter home.

His arm, which was badly wounded in battle, is doing so nicely that it was decided best not to operate, as had been contemplated, but his discharge has been made out under the disability head and if at any future time it becomes advisable for the wound to receive treatment he is privileged to return to the army hospital.

2000 MOTORCYCLISTS SPEND DAY AT BEACH

SEAL BEACH, June 16.—Two thousand motorcycle riders arrived here yesterday as members of the annual gypsy tour of Southern California saddle and side-car enthusiasts. Many of the best-known riders and fastest racing men of the country attended the meet, and added much to the occasion by participation in the regular schedule of events, and by staging numerous special features.

"Cannonball" Baker, holder of several world's records, was perhaps the best-known race rider present. He shared honors with Sailor Martin of San Francisco, who proved the big attraction of the day by riding around the derby coaster on his motorcycle. Jumping races, sack races, deep sand races and other events were parts of the program. A picnic dinner was a big tea.

The regular meeting of the Eastern Star was held Monday evening. Three new candidates were initiated into the order. After partaking of delicious refreshments, musical numbers by Mrs. Seaman, Worthy Matron of Yorba Linda, were enjoyed. Guests from Artesia and Hollenbeck were present.

On Tuesday evening the freshman class from the Fullerton high school enjoyed a picnic supper at Long Beach. Those from Buena Park who enjoyed the event were the Misses Eleanor Warren and Florence Robinson and Messrs. Harold Thurman and Thomas Warren.

Mr. and Mrs. H. G. Bixby were hosts at a charming dinner party Tuesday evening. Besides the hosts, covers were laid for Mr. and Mrs. Smothers, Miss Martha Smothers and Mrs. Abernathy.

Miss Juanita Simpson attended the commencement exercises of Whittier college the fire of the week.

Mr. and Mrs. Charles Preston and son Cecil, with Mrs. Preston's father and mother, have started on their way to Springfield, Ill. They are making the trip in their automobile and expect to stop over a few days in Phoenix, Ariz., to visit Mrs. Preston's brother, E. Mann and Carl Gifford of the Standard Oil Company are enjoying vacations.

A. Benton has moved into the Warren cottage, lately vacated by Frank Bell.

Mr. and Mrs. Charles Barrett, Mr. and Mrs. Bell of Los Angeles were guests of old-time friends, Mr. and Mrs. R. Duncan the first of the week.

Mrs. G. McComber is spending this week at Long Beach.

Mr. and Mrs. Frank Isbell charmingly entertained a few friends at their home Friday evening. Those present were Mr. and Mrs. George Thomas,

ORANGE PERSONALS AND NEWS NOTES

ORANGE, June 16.—Members of the Gordon Granger Woman's Relief Corps held a pleasant and successful dinner social at the home of Mrs. Emma S. Walling, 168 South Cambridge street.

About forty women were in attendance. J. L. Knesel kindly using his automobile to bring several who could not otherwise have been present. A short musical program was presented, consisting of two songs by Mrs. Louise Ellsworth, Miss Bibber playing the accompaniment, and a piano selection by Little Miss Arca Barker. All the numbers were excellent and were much appreciated by the audience.

Delicious fruit punch and wafers were served as refreshments. The amount realized from the social was \$4.55, which will be used to start a fund for the purchase of flags for the Corps.

The plans for establishing a modern dairy farm northwest of Orange are announced by E. G. and J. H. Stinson.

The Stinson brothers have purchased 75 acres of land and will stock up at once with 100 dairy cows. The land was owned by H. W. Rohrs, Fred Shroeder, and Mrs. Mills of Los Angeles. A pumping plant is being put down and preparations are being made to install all modern dairy appliances.

The product of the dairy will be sold to the Los Angeles Creamery Company.

Miss Emily Spotts entertained a few of her friends at her home on West Chapman avenue. Many delightful games were played, the art gallery proving to be the most interesting. Later, delicious refreshments were served. Among those present were Misses Palmer, Parsons, Hahn, Kenyon, Wilkins, Handley, Thorburn, Graham, Chandler, Fernald and Miss Eunice Wilson.

Miss Helen Russell and Walter Misenier, who were married Friday, left this morning by automobile for Michigan to visit relatives. Mr. Misenier's folks live in Bay City, and Mrs. Misenier's in Western Michigan. She has been in Orange about two months visiting her sister, Mrs. Jay Palmer.

Do you want skin-health?

If you are suffering from eczema or some similar distressing, embarrassing skin eruption, why don't you get rid of it by using Resinol Ointment? Unless the trouble is due to some serious internal disorder, it quickly yields to Resinol, and in most cases is easily healed by it. The first application usually stops itching and makes the skin feel cool and comfortable. We recommend it with the utmost confidence because of its harmless ingredients. Aided by Resinol Soap it acts even more quickly.

Resinol

Ointment and Resinol Soap also help to clear away pimples. Sold by all druggists and dealers in toilet goods. Trial of each, free. Dept. 3-S, Resinol, Baltimore Md.

Let Us Move Your Household Goods.

Now is the time to arrange for having your household goods moved. Don't put off until the last moment, as you are liable to be delayed

and disappointed. We are booking moving orders every day. Let us estimate on your load. You'll find our price the lowest and our service the quickest and most reliable. We employ only trained movers and packers who will handle your goods with care. Phone 66 or write for an estimate. It won't obligate you or cost you anything to find out what the cost will be.

Sulphur for Apricots

Apricot sulphur should be not only absolutely pure sulphur, but should also be light, fluffy, and free-burning. If you try to save a dollar by buying a sack of heavy sulphur, even though it is pure, you will lose ten dollars in time and grief.

There are two things to insist on when you buy sulphur for apricots. First—Get it chemically pure and free from arsenic. Second—get a sulphur of low density—light, soft and very fine grained. Always start the fire with a hot iron.

Prices on one pound or a ton.
